Education

- Bachelor's in **Civil Engineering**
The University of Jordan,
Jordan, **2011 - 2016**
- Bachelor's In **Surveying Engineering**
Wadi Al-Seer College Intermediate
University,
Jordan, **2009 - 2011**

Languages

- Arabic:** Mother Tongue
- English:** Very Good

Skills

- Project Management
- Road Construction
- Surveying Equipment (GPS, Total Station, Level)
- Land Surveying
- Topographical Analysis
- Budget Management
- Quality Assurance
- Team Coordination
- Infrastructure Design
- Drainage Systems
- Electrical Systems
- Construction Scheduling
- Client Liaison
- Safety Compliance
- Resource Management
- Maintenance Management
- Lighting Infrastructure
- Structural Design
- Project Coordination
- Utility Integration
- Financial Reporting

Professional Summary

Dedicated and skilled Infrastructure Engineer with extensive experience in managing complex projects, including road construction and rehabilitation. Proven ability to lead teams, manage budgets, and ensure high-quality outcomes. Adept at coordinating tasks, addressing client needs, and maintaining safety and compliance standards. Demonstrated expertise in both electrical and civil engineering aspects, complemented by Project Management Professional (PMP) training, with a strong track record of successful project execution and client satisfaction.

Work Experience

Construction Manager

Shibh Al Jazira Contracting Co. (SAJCO), Saudi Arabia
November 2024 - Present

- Project Management & Oversight:** Oversee and manage multiple construction projects, ensuring they are completed on time, within budget, and meeting quality standards.
- Team Leadership & Coordination:** Lead, mentor, and coordinate a team of engineers, architects, and subcontractors to achieve project objectives efficiently.
- Budget & Cost Control:** Develop project budgets, track expenses, and ensure effective resource allocation to prevent cost overruns.
- Site Inspections & Quality Assurance:** Conduct regular site inspections to ensure compliance with safety regulations and construction standards.

Infrastructure Engineer

Zakaria Saleh Al Tarawneh Contracting Company W.L.L, Jordan
May 2022 - February 2023

- Road Infrastructure Implementation:** Managed earthworks for road construction, including excavation, grading, and the installation of sub-base and base course layers to ensure road stability.
- Water and Drainage Systems:** Supervised the installation of water networks and stormwater drainage systems. Designed and implemented retaining walls and culverts for effective water flow management.
- Project Budget Management:** Managed a project budget of \$7,000,000 USD, ensuring all expenses remained within budgetary constraints. Provided regular financial updates to senior management.
- Team Coordination:** Led a team of engineers and construction workers, coordinating tasks and schedules to ensure timely and efficient project completion.
- Quality Assurance:** Conducted thorough quality checks on all civil infrastructure components to maintain high standards.

Infrastructure Engineer

Al-Yaman Construction Contracting, Jordan
February 2021 - February 2023

- Road Rehabilitation & Upgrading:** Directed earthworks for road rehabilitation, including excavation, embankment, and the installation of sub-base, base course, and asphalt layers. Managed gabion works for enhanced road stability.
- Utility Infrastructure:** Oversaw the integration of utility infrastructure, such as electricity and telecommunications conduits, within road projects, ensuring they adhered to civil engineering standards.
- Lighting Network Maintenance (Al-Karak):** Supervised civil works related to the maintenance of road lighting infrastructure, ensuring safety and functionality in coordination with local authorities.
- Lighting Network Maintenance (Al-Ma'an & Wadi Mousa):** Managed civil aspects of road lighting maintenance, addressing issues.

Trainings And Courses

- Infrastructure Course (implementation)
- Structural Audit Requirements
- Project Management Professional (PMP)
- Effective Leadership And Management
- Project Management As A Life Skill.
- Communication Skills
- Drawing In 4d
- American Conversational English(3 Levels)
- Engineering Seminar Entitled Advanced
- Engineering Solutions
- Project Management Using Ms Project
- Young Engineers And Labor Market
- Introduction To Project Management
- Project Management Using Ms Project
- Professional Leadership
- Leadership And Strategic Performance
- Introduction To The Calculation Of Quantities
- Proactive Management And Thinking
- The Role Of The Contractor Engineer And
- Supervision Engineer In The Projects
- Introduction To The Primavera Project
- Introduction To The Pricing Of Construction Projects
- Construction Supervision Manual

References

Available upon request

Infrastructure Engineer

Mahmoud Tarawneh Contracting Company, Jordan

March 2020 - January 2021

- **Road Rehabilitation & Upgrading:** Led the rehabilitation and upgrading of Wadi Mousa Road, focusing on earthworks, sub-base installation, and other civil engineering tasks.
- **Rainwater Drainage Project:** Supervised the installation of rainwater drainage systems to prevent road flooding and maintain structural integrity.

Construction Engineer

Building Work Company, Jordan

June 2018 - February 2020

- **Green Villa Construction:** Led the construction of a green villa with specialized civil engineering specifications. Coordinated with architects t.
- **Rural Villas Construction:** Supervised the civil works for three rural villas, managing project budgets and timelines to meet unique design requirements.
- **Construction Quality Control:** Conducted quality control inspections on-site, ensuring that all civil work met the required building codes and standards.
- **Client Liaison:** Served as the main point of contact for clients, addressing concerns and providing regular updates on project milestones.

Infrastructure Engineer

Khaled Al-Bustanji Co., Jordan

January 2018 - June 2018

- **Infrastructure Assessment:** Performed assessments of existing infrastructure systems to identify areas for improvement and required maintenance.
- **Engineering Analysis:** Conducted engineering analyses and simulations to optimize design solutions and improve project efficiency.
- **Risk Management:** Identified potential risks associated with infrastructure projects and developed mitigation strategies to minimize impact.

Infrastructure Engineer

Al-Yaman Construction Contracting, Jordan

January 2017 - December 2017

- **Project Management:** Led the management of infrastructure projects from conception through completion, ensuring all phases were executed within scope and schedule.
- **Construction Supervision:** Supervised on-site construction activities, ensuring work was performed according to plans.
- **Documentation and Reporting:** Maintained detailed project documentation for stakeholders and regulatory compliance.

Infrastructure Engineer

Khaled Al-Bustanji Co., Jordan

January 2016 - December 2016

- **Project Planning and Coordination:** Assisted in planning and coordinating infrastructure projects, ensuring timely execution and budget adherence.
- **Site Inspection and Analysis:** Conducted site inspections and technical analyses to ensure compliance with engineering standards and project specifications.
- **Team Collaboration:** Collaborated with construction teams, subcontractors, and stakeholders to facilitate communication and resolve on-site issues.

Achievements and Awards

- **Effective Project Management:** Successfully managed a range of infrastructure projects, ensuring timely completion and adherence to quality standards.
- **Expertise in Road Infrastructure:** Demonstrated extensive knowledge in road construction and rehabilitation, including earthworks, asphalt laying, and drainage systems.
- **Quality Assurance Excellence:** Implemented rigorous quality checks and ensured compliance with engineering standards.
