

JAMAAN ABDULLAH AL ZAHRANI

Saudi Arabia • +966 531477855 • jamaan8090@gmail.com

PROFESSIONAL OBJECTIVE

Detail-oriented Computer Systems Engineer committed to improving system design and operations for reliable workflow management. Researches and implements budget-conscious security conscious security and encryption solutions to protect user privacy and increase overall network health. Creates easy-to-follow guidelines and troubleshooting documentation for non-technical staff.

EDUCATION

Bachelor of Science in Computer Engineering

Aug 2024

Umm Al-Qura University at Mecca

For my university graduation project, I developed an electronic attendance camera system that automatically detects students and logs their attendance according to the class schedule, utilizing Python programming.
