## PERSONAL SUMMARY

Licensed Civil Engineer with 18 years of extensive international experience in construction management, structural inspection, and site supervision across Saudi Arabia, Qatar, UAE, Malaysia, and the Philippines. Proven track record in managing high-rise residential towers, commercial complexes, and infrastructure projects. Expertise lies in ensuring strict compliance with approved shop drawings, project specifications, and safety standards. Adept at coordinating with consultants, managing sub-contractors, and executing QA/QC procedures to deliver high-quality project outcomes.

## WORK EXPERIENCE

**Civil Site Engineer** | November 02, 2024 – October 20, 2025

*Al Rashid Trading and Contracting Company* - Riyadh, Kingdom of Saudi Arabia

### Project Assigned:

- ✓ Wadi Safar Infrastructure Package 1, Diriyah
- Directed the construction of Electrical Substations, Service Yards, Culverts, and Mechanical Chambers, ensuring full alignment with civil and structural specifications.
- Managed comprehensive on-site civil works, including MEP integration and finishing, while strictly enforcing safety protocols and quality standards.
- Supervised daily site operations to verify that all executed works matched approved shop drawings prior to official inspections by the QA/QC team and Consultant.

**Civil/Structural Inspector** | May 27, 2014 – August 25, 2023

*DSG Architectural & Engineering Consultancy W.L.L.* - Doha, Qatar

### Projects Assigned:

- ✓ Al Majid Tower (2B+G+24), Marina, Lusail
- ✓ Al Waab Dialysis & Diabetes Center (B+G+3F)
- ✓ West Walk Doha Commercial and Residential District (9 Buildings), Al Waab
- ✓ Mozoon Towers at West Bay (5B+G+2+36F)
- ✓ 5-Star Plus Hotel HALA Tower (3B+G+2+35F), Al Dafna
- ✓ Al Bandary Hotel Apartment Tower (3B+G+30F), Al Dafna
- ✓ Marina Com 20 Office Tower (3B+G+27F), Lusail
- ✓ Beema Office Building (2B+G+M+3F), Energy City (Piling Works)
- ✓ Dafna Villa for Mr. Hisham Al Mana, West Bay
- ✓ Villaggio Mall Upgrade and Expansion
- ✓ Place Vendome Mall (B+LG+UG+M+10F), Lusail (Piling Works)
- ✓ Al Brooq Residential Tower (3B+G+M+43F), Al Dafna

- Conducted rigorous structural and civil inspections for high-rise and commercial projects to ensure compliance with contracts, codes, approved material submittals, and specifications.
- Oversaw critical construction phases including excavation, steel installation, formworks, and concreting, while monitoring material quality parameters such as slump and temperature.
- Managed project documentation by preparing Weekly Progress Reports, Work Inspection Requests (IR), and issuing Non-Compliance Reports (NCR) for any quality deficiencies observed.

**Site Engineer/Architect** | December 20, 2011 – December 20, 2013

*YKH Construction (M) SDN BHD* - Puchong, Malaysia

**Project Assigned:**

- ✓ KMI West 26 Storey Condominium
- Executed end-to-end site inspections for RC piles, steel cages, bore holes, and post-tensioned structures to ensure all works adhered strictly to approved shop drawings.
- Witnessed and verified critical technical tests, including dynamic/static load tests, pile integrity tests, and concrete compressive strength/durability tests.
- Monitored the installation of architectural and structural elements (I-Beams, steel decking, masonry units, waterproofing) while advising the QA/QC engineer on corrective actions and safety implementation.

**Site Engineer/Coordinator** | September 2010 – March 2011 (Abu Dhabi) / March 2008 – December 2009 (Al Ain)

*OGER LLC* | United Arab Emirates

**Projects Assigned:**

- ✓ Abu Dhabi Financial Center (36-Storey Building), Al Sowwah Island
- ✓ UAE University (G+2F), Al Ain
- Supervised daily construction activities and managed sub-contractors to ensure proper coordination, scope implementation, and adherence to quality specifications.
- Reviewed approved shop drawings and project requirements to control work quality prior to official QA/QC inspections.
- Facilitated project communication by preparing internal/external memos and following up on outstanding works to ensure timely project progression.

**Project Engineer** | March 2006 – February 2008

*Kyrie Construction and Design* - Taytay, Rizal, Philippines

**Projects Assigned:**

- ✓ The Grand Eastwood Palazzo (Architectural Finishing of 32-Storey Building), Quezon City
- ✓ Construction of Marina Hotel Multi-Purpose Building and Swimming Pool, Malate, Manila
- ✓ Asphaltting of Parking Area/Road and Construction of Garbage Depository, Quezon City
- ✓ Relocation of Sewer Line, Quezon City
- Managed project financials by processing monthly billings for labor and materials based on accomplishments and preparing detailed project estimates for bidding.
- Conducted thorough inspections of structural layouts, rebars, and formworks, as well as architectural finishes (drywall, cladding, tiling, painting) prior to QA/QC turnover.
- Coordinated site schedules, material procurement, and manpower allocation while generating weekly accomplishment reports for management review.

**Part-time (Office and Site)** | August 2005 – November 2005

*Department of Public Works and Highways (DPWH)* - Nueva Vizcaya, Philippines

- Assisted in the technical estimation of government agency projects to support budgetary planning.
- Conducted site inspections and assisted in surveying road works and land development projects.
- Provided logistical support by submitting material lists and reports necessary for construction scope execution.
