### Professional Summary

Civil Engineer skilled in site supervision, construction operations, and project management. Proficient in advanced engineering tools. I am actively seeking opportunities in civil engineering to apply expertise and contribute to successful projects.

### Work Experience

#### **Cost Estimation Engineer**

Mayar Gulf Engineering Consultants, Riyadh, Saudi Arabia | December 2025 – Present

- Prepared accurate cost estimates by analyzing material, labor, and equipment costs, ensuring competitive pricing.
- Reviewed technical documents, BOQs and drawings, and collaborated with sales and technical teams to align estimates with project scope.
- Developed Work Breakdown Structures (WBS), project timelines, and submitted proposals and tender documents within deadlines.
- Maintained supplier relationships to secure updated pricing and negotiated favorable terms.

#### **Call Center Specialist**

Gold Apple, St. Petersburg, Russia | February 2024 – December 2024

- Handled high-volume inbound and outbound customer calls with professionalism and accuracy.
- Logged all customer interactions, complaints, and resolutions into CRM systems.
- Executed upselling and cross-selling strategies to meet sales targets.

#### **Site Engineer**

Yeshi Construction, Addis Ababa, Ethiopia | March 2021 – June 2022

- Supervised on-site activities to ensure compliance with project specifications, safety standards, and timelines.
- Coordinated with contractors, suppliers, and project teams to maintain smooth workflow and timely material delivery.
- Monitored progress, prepared daily reports, and assisted in resolving technical issues to keep projects on track.

### Education

#### **Bachelor's degree in civil engineering**

Unity University, Addis Ababa, Ethiopia | Sep 2016 – Feb 2021

### Certifications

- Bentley SYNCHRO 4D Professional User Accreditation-Online Course (Bentley) | 2025.
- Google Project Management – Online Course | 2025.
