لمن يهمه الأمر

Civil Engineer Munawar Ali Memon a Pakistani citizen has worked with us since 6<sup>th</sup> August 2001 as Project Manager and finished two of our major projects with the Ministry of Transportation (M.O.T) Kingdom of Saudi Arabia. He is a highly qualified engineer.

Due to his knowledge of the M.O.T specifications (proper interpretation), method of calculating quantities we have directly benefited as road construction contractors.

During his work he supervised the construction of road works such as embankment, subgrade, aggregate base course, bituminous base course, bituminous wearing course, reinforced box culverts RCBC, reinforced pipe culverts RCPC and bridges. For some time in our main office he designed horizontal and vertical alignments, RCBC and RCPC. He prepared detailed construction drawings for circular water tank and many bridges. We found him honest, hardworking, self motivated and very punctual in his work. In his management he applied proper planning, scheduling and monitoring techniques.

Now that he has decided to return to his home country and leave us we wish him all the success in his future goals and hope to find an engineer of equal caliber and qualities.
