

NAWAF ALRAJAH

I am a cybersecurity graduate looking forward to starting my career in information security. I have a solid understanding of the fundamentals of systems and network protection, as well as risk management, and a passion for continuous learning and staying abreast of the latest threats and technologies. I strive to apply my academic knowledge in a practical setting and contribute to enhancing the organization's information security. I am a team player, responsible, flexible, and committed to developing my skills

EXPERIENCE

Information technology management
King Saud bin Abdulaziz University for Health Sciences

EDUCATION

Bachelor's degree in cybersecurity

Technical College
2025/5/29

SKILLS

- Understanding networks and protocols (e.g., TCP/IP, DNS, HTTP, VPN).
 - Basics of operating systems (especially Windows and Linux) and how to secure them.
 - Firewall and Intrusion Detection Systems (IDS/IPS) Management.
 - Vulnerability management
 - Analyze logs, alerts, and security data
 - Dealing with common vulnerabilities and attacks (eg: SQL injection, XSS, phishing).
 - Ability to use penetration testing and network security tools (e.g., Wireshark, Nmap, Metasploit).
 - Incident Response
 - Risk Assessment
 - Proficiency in using Microsoft Office programs (Excel, PowerPoint, Word)
-

Courses

- Information security
- Certified ethical hacker
- Cyber security
- Social engineering in information security
- Awareness of cybersecurity risks
