SUMMARY

With 5 years' experience on MASAR development project, Makkah, a purpose-driven and hands-on civil site engineer with four years of experience spearheading construction operations on the prestigious Masar development project in Makkah. Specializing in earthworks, utilities, structural concrete, quality assurance, and safety compliance, I ensure that every phase of construction aligns with design blueprints and regulatory standards. Proven ability to coordinate contractors, manage resources, and deliver on-time, within-budget results in fast-paced construction environments. Strong technical acumen in interpreting drawings and executing plans, complemented by solid communication, problem-solving.

EDUCATION

- ❖ Diploma of Associate Engineering (DAE) Civil Engineering

PROFESSIONAL EXPERIENCE

Company : Sama Construction Company Ltd.
Project : MASAR Development Project - Makkah
Position : Civil Site Engineer
Date : June 01, 2021 to January 31, 2025

Company : Star Builders Construction Company Ltd.
Project : Qiddiya Project – Riyadh
Position : Civil Site Engineer
Date : Feb 01, 2025 to Feb 01, 2026

WORK RESPONSIBILITIES AT SITE”

- ❖ Coordinate with project managers, consultants, subcontractors, ensuring smooth progression
- ❖ Enforce quality and safety standards: inspections, HSE protocols, documentation.
- ❖ Interpret and review construction drawings, specifications, and documents.
- ❖ Prepare daily/weekly reports, track material usage, resolve on-site technical issues
- ❖ Ensure safe and accurate excavation according to design depth and alignment.
- ❖ Supervise soil testing to confirm layers are suitable.
- ❖ Oversee backfilling and compaction, ensuring materials meet specs and tests like Proctor density pass.
- ❖ initiate or implement **FCNs** when site conditions require changes to IFC drawings. Coordination with consultants is essential to ensure modifications are documented and approved.
- ❖ Raise **TQs** for any unclear or conflicting information in the drawings or specifications to avoid delays and maintain quality execution.
- ❖ Maintain **Red Markup drawings** to record any on-site deviations or field adjustments, which are later submitted for As-Built documentation.
- ❖ Coordinate with the QA/QC and procurement teams to ensure all materials used on-site

CURRICULUM VITAE

are pre-approved through a **MAR** and conform to client/project standards.

- ❖ Review and implement approved **Method Statements** for each activity (excavation, concreting, waterproofing) ensuring safety, quality, and compliance with project procedures.
- ❖ Monitor quality internally and raise **INCRs** within the team to identify and rectify issues before they escalate to client-level NCRs.
- ❖ Coordinate with surveyors for precise levels, slopes, and profiles.
- ❖ Manage pre-pouring preparations: formwork setup, reinforcement placement, embed items, curing plans.
- ❖ Oversee concrete pouring, supervision of proper mix, slump, placement methods, compaction, and curing.
- ❖ Handle grout operations in joints or baseplates, verifying mix and application accuracy.
- ❖ Conduct quality checks and coordinate with labs for compressive strength testing.
- ❖ Confirm detailed inspections: formwork, reinforcement, embedded conduits before pour.
- ❖ Review drawings and RFIs to prevent discrepancies.
- ❖ Supervise RCC structures: foundations, slabs, columns, beams, shear walls.
- ❖ Verify structural elements align with drawings and tolerances prior to final inspection.
- ❖ Conduct site inspections and report deviations for corrective action.
