PROFESSIONAL SUMMARY

I am a Civil Engineer with over 4 years of experience in infrastructure projects, excavation permit management, and site engineering. Proven background in bridges, tunnels, quality control, and regulatory compliance through the Balady system. Strong coordination and process-improvement skills, currently pursuing PMP certification with the goal of advancing into project management roles.

PROFESSIONAL EXPERIENCE

Euro Consult – Madinah (Projects Agency)

Excavation Permit Engineer

May 2024 – Dec 2025

- Reviewed and processed excavation permits through the **Balady platform**, ensuring full compliance with Infrastructure Agency requirements.
 - Verified technical attachments and documentation accuracy prior to approvals.
 - Coordinated with internal teams to improve workflow efficiency and reduce permit processing delays.
 - Provided recommendations that enhanced the permit approval system from document endorsement to final authorization.
-

Euro Consult – Madinah

Site Engineer

May 2023 – May 2024

- Supervised on-site construction activities for **three infrastructure projects (one bridge and two open tunnels)**.
- Ensured adherence to project specifications, safety regulations, and quality standards.
- Conducted routine inspections, identified construction issues, and implemented corrective actions to maintain project schedules.
- Coordinated with contractors, consultants, and technical teams to ensure timely and compliant execution of work.

Abalkhail Office for Engineering Consultants – Madinah

Civil Engineer

May 2021 – May 2023

- Performed regular inspections for culvert projects, ensuring compliance with design specifications for **reinforcement steel and concrete pouring**.
 - Participated in material and quality control activities, including:
 - Laboratory visits for material verification.
 - Concrete compressive strength testing.
 - Conducted site visits to ensure proper material storage and handling.
 - Inspected insulation works and identified implementation errors to ensure quality compliance.
-

EDUCATION

Bachelor of Civil Engineering

University of Prince Mugrin bin Abdulaziz – Madinah

Jan 2015 – Aug 2019 - GPA: **3.25 / 4.00** - Academic Project: Prepared BOQ and performed cost and duration estimation for a two-story residential building.
