

MUHAMMAD HUZAIFA

CIVIL ENGINEER

PROFILE

Civil Engineer with hands-on experience in site supervision, quality control, and construction coordination for large-scale infrastructure and building projects, including flyovers, motorways, rural roads, and healthcare facilities. Skilled in monitoring construction activities, preparing BOQs, and ensuring compliance with drawings, specifications, and HSE standards. Proven ability to collaborate with consultants, contractors, and multidisciplinary teams to deliver projects on time and to the highest quality. Seeking a Site Engineer/Civil Engineer role in Saudi Arabia to leverage technical expertise and contribute to successful project delivery.

WORK EXPERIENCE

Assistant Resident Engineer 2024 - 2026
NESPAK - National Engineering Services - Pakistan

- Supervising structural and civil works execution as per approved drawings and technical specifications.
- Ensured quality control of materials and construction as per project standards and safety regulations.
- Monitoring piling operations, foundation works, substructure and superstructure construction.
- Assisted in project planning, scheduling, coordination, and reporting.
- Prepared proformas, cost estimates, BOQs, and technical documentation.
- Coordinated between NESPAK (consultant) and NLC (contractor) for smooth project execution.
- Hands-on experience in piles work, foundation supervision, civil structures, and site plan preparation.

Site Engineer 2023 - 2024
National Logistics Corporation - Pakistan

- Assisted in project planning during the initial stages of infrastructure development, ensuring effective project kick-off.
- Supervised construction activities to ensure strict compliance with approved drawings, technical specifications, and safety standards.
- Conducted quality control inspections to verify construction activities met required standards and specifications.
- Collaborated with engineers and site teams to facilitate smooth and efficient project execution.
- Acquired practical experience in motorway and flyover construction, including exposure to large-scale infrastructure projects.
