About me

I am a dedicated Civil Engineer with extensive experience in infrastructure development, fiber optic systems, and telecommunications. My expertise spans across designing, managing, and executing large-scale projects that integrate advanced technologies with traditional civil engineering principles. I have a proven track record of delivering high-quality results in the construction sector, focusing on building structures, utilities, and modern communication networks.

With a strong foundation in project management and a detail-oriented approach, I am committed to achieving excellence and fostering innovation in every project I undertake. My ability to adapt to diverse engineering challenges has enabled me to contribute effectively to multidisciplinary teams and drive success in dynamic environments.

 - Prepared technical and operational reports for the municipality.
 - Monitored equipment performance and supported preventive maintenance planning.
 - Ensured compliance with safety and quality standards during field operations.

Work experience

Civil Site Engineer

From June 2024 to September 2025

Innovative Contractors For Advanced Dimensions (ICAD) Riyadh, Saudi Arabia

As a Civil Site Engineer, I have had the privilege of contributing to the realization of iconic royal projects, including luxurious palaces, high-profile infrastructure developments, and advanced steel warehouse constructions. My expertise encompasses managing intricate light current systems, orchestrating multi-disciplinary teams, and ensuring the seamless integration of cutting-edge infrastructure solutions. With a relentless commitment to excellence, rigorous attention to detail, and an eye for innovation, I played a pivotal role in delivering projects that embody sophistication, structural integrity, and engineering brilliance. These prestigious projects not only met but exceeded the highest standards of quality, leaving a lasting legacy of architectural grandeur and technical mastery.

Work experience

Civil Site Engineer

From December 2022 to May 2024

Mhairat Housing Amman, AM, Jordan

As a Civil Site Engineer, I have excelled in the housing and construction sector, overseeing the execution of residential projects with precision and efficiency. My role encompassed managing on-site operations, ensuring compliance with architectural and structural designs, and delivering high-quality results within set timelines and budgets. With a keen eye for detail and a commitment to excellence, I successfully transformed blueprints into reality, contributing to the creation of modern, sustainable living spaces that meet and exceed client expectations.

Site Engineer

From October 2020 to November 2022

The coalition of Ghazi Hamdan and his partner and Rashid Contracting Establishment Amman

I have played a pivotal role as a Site Engineer in the high-profile National Broadband Network Project, spearheaded by the Ministry of Digital Economy and Entrepreneurship. This \$16 million initiative, focused on expanding optical fiber infrastructure, saw my leadership and technical expertise come to life in Southern Amman and Madaba. My contributions ensured seamless execution, optimized resource utilization, and adherence to international standards, driving progress in Jordan's digital transformation journey.

Work experience

Assistant Manager

From May 2020 to October 2020

MANASEERCO Amman, AM, Jordan

Provide direct assistance and reporting to managers. This role requires overseeing day-to-day operations within an organization, providing direct feedback to staff, managing payroll and personnel databases, interview and hiring new staff.

Work experience

Trainee

From January 2019 to May 2020

GREATER AMMAN MUNICIPALITY Amman

I gained hands-on experience as a trainee in Amman's flagship Express Bus Project (BRT), where I contributed to the development of critical infrastructure, including the iconic Sports City intersection, multiple vehicular bridges, and a state-of-the-art passenger station beneath one of the bridges. This dynamic role sharpened my technical skills, exposed me to complex urban transportation solutions, and deepened my understanding of large-scale, multi-faceted construction projects.

Employee

From May 2018 to September 2018

Private Sector Saint Louis Place, United States
