CAREER SUMMARY

Computer Information Systems graduate with a solid foundation in system analysis, cybersecurity fundamentals, and mobile application development using Flutter. Gained hands-on experience during cooperative training in security monitoring, threat hunting, and log analysis using SIEM tools. Motivated to apply technical skills, analytical thinking, and continuous learning in an entry-level IT or cybersecurity role.

EDUCATION

Prince Sattam bin Abdulaziz University
Bachelor of Computer Information Systems (CIS)
Graduated: 2026

TRAINING EXPERIENCE

Cooperative Training – MIS (Almoammar Information Systems)

- Monitored and analyzed security alerts using SIEM tools (Splunk).
 - Performed basic threat hunting activities and investigated suspicious events.
 - Analyzed system and security logs to identify potential incidents.
 - Documented findings and created customer tickets with clear technical details for issue resolution.
 - Collaborated with the security operations team to support incident response processes.
-

PROJECTS

BrailleTalk – Graduation Project

Assistive mobile application for deafblind users that converts real-time speech into Braille characters and haptic vibration patterns, enabling tactile interaction with spoken language.

TECHNICAL SKILLS

- SIEM (Splunk)
 - Threat Monitoring & Log Analysis
 - Flutter (UI Development) – Basic
 - System Analysis Fundamentals
 - Database Fundamentals
 - Microsoft Office (Word, Excel, PowerPoint)
-

CERTIFICATIONS

- IBM – Getting Started with Cloud for the Enterprise
 - IBM – Getting Started with Enterprise Data Science
 - IBM – Getting Started with Threat Intelligence and Hunting
-

LANGUAGES

- Arabic: Native
- English: Intermediate
