PROFILE

Aspiring Cybersecurity professional with a strong interest in SOC operations, Blue Team activities, and threat detection. Background includes hands-on experience in configuring and deploying laptops, desktops, and multi-monitor setups, installing Windows and Linux systems, managing endpoint security tools (Trellix Endpoint Security, ClearPass OnGuard), enabling secure VPN connections, and performing encrypted data transfers. Committed to developing cybersecurity expertise while leveraging practical IT experience to protect systems and maintain a secure IT environment.

WORK EXPERIENCE

2024 - PRESENT

Giza Arabia Systems | Dhahran, Saudi Arabia

Computer Systems Technician

- Operating System Installation:
 - Installed Windows and Linux using Aramco-approved system images (USB).
- Domain Integration:
 - Joined devices to the company domain (Join Domain) and configured settings to ensure proper network connectivity.
- VPN Configuration:
 - Activated GlobalProtect VPN to secure connections when working outside Aramco's network.
- Software Deployment:
 - Installed required software from Aramco App Center based on user needs.
- Security Tools Management:
 - Configured and protected devices using Trellix Endpoint Security to detect threats and ensure policy compliance, and used ClearPass OnGuard to check device health before network access.
- Encrypted Data Transfer:
 - Performed BitLocker-protected data transfers in coordination with the IT security team to safeguard information during transfer.
- Device Wipe / Reimaging:
 - Executed full device wipes for returned or replaced devices to remove previous data before redeployment.
- Multi-Device & Multi-Monitor Setup:
 - Set up and connected diverse devices and multi-monitor configurations, including laptops, desktops, and large screens capable of splitting into two or three sections, configured according to employee requirements.
- Technical Support:
 - Provided support for login issues, account setup, screen and peripheral configuration, and network troubleshooting.
- Collaboration & Reporting:
 - Worked closely with Aramco IT teams and Solutions by STC to ensure seamless system integration and adherence to security standards.

EDUCATION

2022 - 2024

COLLEGE OF TECHNOLOGY

- Bachelor of Cybersecurity
- GPA: 4.38 / 5.0 (Very Good)

2018 - 2021

COLLEGE OF TECHNOLOGY

- Diploma of Computer Technician Support with Good grade

SKILLS

- Adaptability
- Attention to Detail
- Teamwork
- Time Management
- Data Protection & Privacy
- Effective Communication
- Cybersecurity Basics
- VPN & Remote Connectivity

CERTIFICATIONS

- Professional Certification: Cybersecurity Specialist - Saudi Council of Engineers
- Securing Remote Access Users - Aramco
- Information Security Essentials (SAP) - Aramco
- PHISHING (SAP) - Aramco
- NDG Linux Essentials - Cisco
- Introduction to Networking: Routing and Switching - Cisco
- Routing and Switching Fundamentals - Cisco
- IT Essentials: PC Hardware and Software - Cisco
