

ABDULAZIZ MOHAMMED YAGOOB

Civil Engineer

+966 55 004 7296 | azoozealfjo@gmail.com | Kingdom of Saudi Arabia

Professional Summary

Results-driven Civil Engineer with over 5 years of experience in managing and supervising construction projects from initial planning to project completion. Skilled in structural work, site supervision, quality assurance, and project coordination. Proven ability to meet deadlines within budget while maintaining safety and quality standards. Strong leadership, problem-solving, and communication skills with a focus on efficiency and teamwork.

Professional Experience

Site Engineer | Motaj Engineering and Contracting Co. — May 2022 – July 2025

- Supervised multiple construction sites from handover and planning to completion.
- Managed excavation, foundation works, soil replacement, backfilling, and reinforced concrete in accordance with structural plans.
- Oversaw finishing works based on architectural designs and ensured adherence to project specifications and safety standards.
- Coordinated with engineers, subcontractors, and clients to ensure smooth workflow.

Site Engineer | Hassan El-Musharaf Contracting Co. — March 2020 – January 2022

- Led daily site operations, including excavation, backfilling, concrete works, and finishing stages.
- Ensured compliance with design plans, material standards, and project schedules.
- Supported quality control and documentation processes.
