

# ABDUL HADI MOHAMMED

Riyadh, Saudi Arabia | +966508142673 | mohammedabdulhadi35@gmail.com

Iqama Status: Transferable | Registered: Saudi Council of Engineers (SCE)

## PROFESSIONAL SUMMARY

Detail-oriented Civil Engineer with a Master's in Construction Engineering Management (3.9/4.0 GPA) and almost 5 years of international experience across Saudi Arabia, the UK, and India. Proven track record in BIM-integrated workflows, structural inspections, and site team leadership. Knowledge in QA/QC, Estimation, and Technical Compliance with Saudi Building Codes and ISO standards.

## CORE COMPETENCIES

- Digital Construction: BIM (Building Information Modeling), Autodesk Revit, AutoCAD, and PlanSwift.
- Technical Compliance: Saudi Building Codes, British Standards, ISO 9001, and SMSTS.
- Project Management: Estimation & Cost Analysis, Tendering, Proposal Management, and Supply Chain Analytics.
- Field Engineering: Site Supervision, Structural Integrity Inspections, Infrastructure Maintenance, and HSE Protocols.

## EDUCATION

### **MSc in Construction Engineering Management** (with Industrial Placement)

University of East London, UK | GPA: 3.9/4

### **B.E. in Civil Engineering**

Osmania University, Hyderabad, India | GPA: 7.1/10

## ENGINEERING EXPERIENCE

### **Material Engineer / Site Coordinator** | CBL Holdings – Riyadh, KSA

August 2025 – January 2026

- Managed technical documentation (MAR/MIR) and Revit-based shop drawings.
- Verified material submittals against project specifications and Saudi Building Codes.
- Performed precision estimation and quantity take-offs using PlanSwift to align with project budgets.

- Coordinated the full tendering lifecycle, delivering competitive technical and commercial bids.

**Civil Engineer** | Hydroline Solutions – London, UK

May 2023 – June 2025

- Supervised civil site activities for large-scale pipeline networks and drainage infrastructure.
- Utilized BIM methodologies to coordinate underground utility layouts and minimize clashes.
- Ensured compliance with British Standards through rigorous QA/QC inspections.

**Facilities & Maintenance Engineer** | Heritage Constructions

February 2022 – March 2023

- Managed structural maintenance and performed audits using digital checklists to manage snag lists.
- Coordinated civil repair works and infrastructure upgrades while adhering to strict HSE protocols.

**Civil Engineer** | North East Infra Developers – Hyderabad, India

October 2019 – January 2021

- Supervised daily construction for industrial and residential projects, including excavation and foundation activities.
- Monitored site progress and implemented corrective actions to meet strict project deadlines.

**CERTIFICATIONS & TECHNICAL PROJECTS**

- Certifications: CAPM (PMI), PRINCE2, Lean Six Sigma Green Belt, ISO 9001, and Site Safety Management.
- Software Proficiency: Autodesk Revit Architecture, BIM, AutoCAD, Quantity Survey Professional, and PlanSwift.
- Key Projects: Integrated Stormwater Management, Pipeline Hydraulics, and Rainwater Harvesting.
