

SAMEER KHAN, PMV Inspector

Riyadh, KSA, +966 509278364, sampmv744@gmail.com

SUMMARY

Proactive PMV Inspector with over 5 years of experience in safety compliance and heavy equipment inspection. Expert in conducting detailed safety audits, validating operator licenses, and managing equipment maintenance for mobile cranes and construction vehicles. Successfully reduced operational downtime through effective preventive maintenance and defect reporting. Passionate about ensuring compliance with Saudi regulations and enhancing overall worksite safety, ready to bring valuable skills to excel as a Vehicle Inspector and contribute to industry-leading projects.

WORK EXPERIENCE

01/2026 – Present

PMV INSPECTOR, FCC Spanish , NESMA & PARTNERS JV Riyadh, KSA

- Accomplished Plant Machinery & Vehicle (PMV) Inspector specializing in inspection, safety compliance, and preventive maintenance of heavy equipment, including mobile cranes, forklifts, man lifts, and construction vehicles.
- Adept at executing daily inspections, maintaining equipment documentation, conducting safety audits, and ensuring adherence to Saudi regulations.
- Currently collaborating with the main contractor PMBS Joint Venture on the Qiddiya City project.
- Conduct daily inspections of heavy machinery, such as mobile cranes, forklifts, boom trucks, man lifts, and loaders.
- Guarantee equipment compliance with Saudi safety standards and project safety regulations.
- Validate operator certifications and licenses prior to equipment operation.
- Execute pre-operation inspections and safety checks.
- Oversee preventive maintenance schedules for construction machinery.
- Report equipment defects and ensure prompt corrective actions are taken.
- Maintain comprehensive inspection reports, equipment logs, and safety documentation.
- Coordinate with maintenance teams to address mechanical issues.
- Ensure that lifting equipment complies with safety requirements before lifting operations.
- Assisted in inspecting cranes and construction machinery.
- Checked safety devices on equipment, including limit switches and Load Moment Indicators (LMI).
- Sustained detailed equipment inspection records and reports.
- Ensured compliance with site safety policies.

05/2024 – 01/2026

PMV Supervisor – Plant, Machinery & Vehicles, Fatayerji Contracting Company Alwajh

- Managed a comprehensive PMV fleet, encompassing excavators, loaders, cranes, generators, trucks, compressors, and light vehicles.
- Implemented preventive and corrective maintenance schedules while supervising mechanics, electricians, and workshop teams.
- Conducted thorough inspections to detect faults early, effectively reducing breakdowns and extending equipment life.
- Monitored utilization rates, fuel consumption, hour meters, and equipment deployment across various project sites.
- Maintained accurate PMV records, job cards, and inspection reports while preparing daily, weekly, and monthly PMV reports.

- Oversaw the inventory of spare parts and consumables, ensuring the availability of critical components.
- Led adherence to Health, Safety, and Environmental (HSE) compliance, conducted toolbox talks, and verified operator competencies while enforcing safety protocols.
- Coordinated with project managers and site engineers to optimize equipment allocation and resource use.
- Reduced operational expenses by managing repair costs, tracking parts usage, and preventing equipment misuse.

EDUCATION

06/2018 – 07/2022	Hazara University BS, Telecom	Pakistan
2018 – 2021	Peshawar Institute DAE, Electrical	Peshawar
2016 – 2018	BISE SWAT FSc Pre-Engineering	Swat
2014 – 2016	BISE SWAT Matric, Science	Swat

SKILLS

Heavy Equipment Inspection	Mobile Crane Safety Inspection
Preventive Maintenance Monitoring	Equipment Registration & Compliance
operator license verification	Equipment safety audits
Defect reporting and documentation	lifting equipment inspection
Heavy Equipment Inspection Procedures	Mobile Crane Safety Devices
Hydraulic System Basic Knowledge	Equipment Maintenance Monitoring
Construction Equipment Documentation	PMV & Heavy Equipment Management
Preventive Maintenance Planning	Breakdown & Repair Coordination
Workshop Operations	Fleet Utilization Optimization
Mechanical & Electrical Troubleshooting	Inventory & Spare Parts Control
Vendor & Supplier Coordination	Risk Assessment
Documentation & Reporting	Safety Compliance (HSE)
Team Leadership	

CERTIFICATES

HSE Training

Maintenance Management

Workshops

Telecom & Fiber Transmission Training
