Address: Currently in Saudi Arabia – KPK Mardan Pakistan.

CAREER PROFILE :

With over two decades of professional expertise, I am a seasoned Material Engineer QC Civil and Site Coordinator - Supervisor with a comprehensive background in Construction industry. My extensive experience spans a variety of sectors, including roads, infrastructure, landscape, and building , Villas projects, as well as power plant developments. I have played a pivotal role in high-profile projects such as the Riyadh Metro and the King Salman Park Landscape Infrastructure Project, where my skills in quality control and site coordination have been instrumental in driving project success. My career is marked by a commitment to excellence and a proven track record in the civil construction field.

QUALIFICATIONS:

ASSOCIATE ENGINEER CIVIL TECHNOLOGY | BATCH: 1999 GCT Peshawar Pakistan

BACHLOR OF ART PESHAWER UNIVERSITY PAKISTAN BATCH 2002.

NEBOSH-IGC INTERNATIONAL GENERAL CERTIFICATION – OSHA CERTIFIED.

Soft Skill - Soft Wear Proficiency : Auto-CAD, MS Excel Project Management Soft wear, PM web, M.O.T Super pav

PROFESSIONAL WORK EXPERIENCE:

Organization:	Al Rashid Trading Co. Riyadh Saudi Arabia	2023 – 2026
Project:	King Salman Park Landscape Infrastructure and Hub Station Sport -Parking Project.	
Designation:	QC. Civil Supervisor.	
Organization:	Saudi Business Machine (SBM) Dammam Saudi arabia.	2018 – 2022
Project:	Fadhli Combined Heat and Power Plant Project Dammam Saudi Arabia. Qurray Integrated Power Plant Project Dammam Saudia arabia.	
Designation:	QC Civil – Site Coordinator	
Organization:	BACS - SAFID Engineering Riyadh Saudi arabia.	2017 – 2018
Project:	Package 1-8 line1 Riyadh Metro Saudi Arabia.	
Designation:	QA.QC Civil Supervisor	
Organization:	SAUD CONSULT Abha - Dammam – Riyadh Saudi Arabia.	2007 – 2017
Projects:	Amana Aseer Abha Municipality Road, Bridge and Sewer Line Project Saudi Arabia. Al Kharj Industrial Estate Road Infrastructure Project Riyadh Saudi Arabia. Najran Industrial Road Infrastructure Project with MODON Saudi Arabia. Dammam 3 Industrial road infrastructure Project Dammam Saudi Arabia.	
Designation:	QC Civil - Material Engr – Material inspector – Civil Inspector	
Organization:	Alharbi Trading Company Alwajh - Dhuba Saudi Arabia.	2005 - 2007
Projects:	Alwajh Duba Road Project and Tabarjal Hospital Project Turiaf Saudi Arabia.	
Designation:	QC Civil / Laboratory In-charge	
Organization:	NESPAK Consultant Peshawar Pakistan.	2001 – 2003
Projects:	NESPAK Consultant Base Laboratory (Asian Development Bank Project) Pakistan	
Designation:	Material Inspector	

JOB RESPONSIBILITIES : Material engr – Material Inspector – Lab Incharge.

Conducted daily inspections to verify contractor and subcontractor compliance with ITPs, Method Statements, drawings, and specifications. Reviewed and developed concrete mix designs for various structural classes, Coordinated material testing activities with construction teams and third-party laboratories for concrete, asphalt, and aggregate base trials. Trained and supervised laboratory staff, improving testing accuracy and quality control procedures. Maintained and calibrated laboratory equipment to ensure reliable test results. Planned and executed laboratory tests in line with project specifications and contractual obligations. Inspected delivered materials maintained complete documentation including certificates, test reports, and delivery records. Participated in final inspections during project handover to confirm material quality and compliance. Ensured all materials met safety, environmental, regulatory standards, and communicated concerns to project teams. Managed QC documentation including RFIs, MIRs, NCRs, and submittals. Conducted site sampling and testing for soil, asphalt, and concrete. Identified and resolved non-conformances issue in coordination with construction teams.

Supervised lab staff and coordinated with third-party labs for testing ensured calibration and maintenance of lab equipment. Adhered to AASHTO, ASTM, ACI, BS standards and project specifications. Oversaw material inspections and approvals for compliance and performance. Maintained traceability and documentation of all site materials. Supported QA/QC Manager and Resident Engineer during inspections. Presented testing outcomes and lab performance reports to management. Attended quality meetings and provided expert input on material compliance. Managed daily lab operations including scheduling and workflow. Conducted asphalt analysis and internal audits of lab procedures. Evaluated suppliers and maintained approved lists. Led final inspections with third-party consultants per project specs. Monitored contractor IRs and ensured timely resolution.

Experience and Responsibilities : Earth Work -Asphalt- Concrete and Asphalt Batch Plant In charge:

Establish and Operate the Laboratory: Set up, organize, and manage the temporary on-site laboratory according to project needs and international standards (e.g., ASTM, BS, ISO).

Inventory: Manage the inventory of testing supplies, chemicals, and consumables required for continuous operation.

Sampling and Testing: Schedule and perform routine and non-routine **sampling and testing** of core construction materials

Material Submittals: Assist the QA/QC team in preparing, reviewing, and tracking all **Material Submittals**.

Inspection: Participate in the **incoming inspection** of all delivered materials on site, checking quantity, damage, and compliance with the approved submittals and specifications.

Storage: Ensure materials are stored correctly and protected from damage or contamination as per project quality plans

Designed asphalt mixes using both **Marshall** and **SUPERPAVE** methods, including aggregate and binder selection Volumetric analysis, Gyratory compactor testing and curve development Conducted **concrete mix designs** tailored to project-specific requirements, strength, workability, durability, and site compatibility. Managed daily operations of **materials testing laboratories**, covering Asphalt, concrete, soil, and aggregate testing Equipment calibration and technician supervision.

Conducted **field supervision** oversight, ensuring compliance with applicable standards (ASTM, AASHTO, BS, etc.) Monitored **batch plants and material stockpiles**, sampling for quality and specification conformance (cement, bitumen, aggregates).

Core Competencies : Documentation and Compliance – Comprehensive reporting, traceability, and regulatory adherence

Asphalt and Concrete Mix Design – Proficient in both Marshall and SUPERPAVE Mix design methods.

Earthworks and Soil Compaction – Extensive experience in earth work backfilling and compaction and quality control testing.

Civil Materials QA/QC inspection – Implementation of procedures for concrete, asphalt, soil, and aggregates

Laboratory Management – Supervision of site testing and materials testing in laboratory.

Third-Party Testing Coordination – Effective liaison with independent labs and inspection agencies

Health and safety Monitoring – Ensuring safety compliance during materials testing and handling.

Asphalt : Density and compaction Marshall stability and flow , binder content, Bitumen Extraction.

Concrete : Anti termite, Slump, Compressive strength (7 and 28 days) Core compaction.

Earthworks : Plate load test, Proctor compaction (standard and modified) CBR FDT soil classification Ride quality assessment.

Aggregates : Sieve analysis Los Angeles abrasion Soundness testing Flat and elongated particles.

Quality Assurance and Reporting

Oversaw testing and QA/QC activities for large-scale infrastructure projects, including **roads, highways, Building, Riyadh Metro, Power Plant, and King Salman Park land scape infrastructure Project**, Verified material compliance through **manufacturer certifications, supplier documentation, and physical inspections**. Maintained detailed **documentation and traceability**, Daily logs, calibration records Material compliance reports. Approved supplier and third-party test records Submitted **weekly and monthly QA/QC reports** to clients. Coordinated third-party testing, including, Core tests, FDT, density checks, cylinder crushing. Ensured all material testing adhered to **project requirements and safety regulations**.

Implemented **SUPERPAVE mix design procedures**, including, Selection of Dense Asphalt Surface (DAS) and Dense Asphalt Concrete (DAC) materials, Evaluation of asphalt binder content, Use of gyratory compactor to generate volumetric curves Determination of **optimum binder content, rotational viscosity, and blend formulation**, Developed and validated asphalt mixes.

JOB RESPONSIBILITIES : Qc Civil– Site coordinator. Qc Civil supervisor. Site inspector.

Compiled and maintained essential quality-related documents including WIR, MIR, ITP, MTS and QC Inspection Checklists to ensure accurate and traceable documentation of all project activities. Maintained detailed daily logs and digital records of civil activities, inspection requests, and site progress to support audit and requirements. Conducted internal audits and reviewed QA/QC protocols to ensure for final handover and project closeout. Facilitated coordination between engineering disciplines and supported project teams with documentation tracking and timely submissions. Handled sensitive documents securely, adhering to data protection protocols and maintaining structured filing systems for easy retrieval. Reviewed all documentation for accuracy and completeness, ensuring timely updates, secure storage.

Reporting and Documentation: Preparing monthly reports including progress photos for audits and regulatory compliance.

Site Inspection and Compliance: Proficient in conducting site inspections and ensuring adherence to industry codes, specifications, and technical documentation standards.

Inspection Coordination: Experienced in QA/QC civil inspections, coordinating site activities, and overs, equipment calibration.

Team Collaboration and Communication: Strong interpersonal skills with a focus on effective communication, teamwork, and resolving field inspection challenges through proactive problem-solving.

Material Verification: Reviewed supplier test certificates and verified with relevant IS codes and project specifications

Structural Supervision: Supervised sub-structural such as excavation, compaction, foundation laying, concrete and testing.

Architectural & Finishing Works: Managed execution of block work, waterproofing, plastering, tiling, painting, screed and installation of architectural and finishing elements with a focus on quality, aesthetics, and timely delivery.

Team Coordination & Safety Awareness: Conducted toolbox meetings tailored to specific construction activities to enhance team awareness, promote safety culture, and ensure alignment with daily work plans.

Skills: Excellent organizational, documentation, and communication skills ability to work independently and manage a team.

Civil Site Utilities and Landscape Supervision : Supervised landscape and utility works for road infrastructure projects, ensuring full compliance with technical specifications, quality standards, and project timelines. Managed site logistics and coordination, including material delivery schedules manpower, and weekly/monthly reporting for consultants. Inspected materials quality control documentation to support audits and project reviews. Oversaw underground utility installations including irrigation systems, storm water drainage pipelines, and manhole construction with strict adherence to design and safety protocols. Directed finishing works such as tile flooring, plastering, masonry, epoxy painting, curbstone placement, waterproofing, and leak testing to ensure high-quality finishes. Coordinated with irrigation and MEP teams to ensure seamless integration of mechanical and electrical systems within landscaped zones, avoiding clashes and ensuring operational efficiency.

- Prepared daily, weekly, and monthly reports; maintained activity logs and testing schedules.
- Oversaw material testing, inspections, and QA/QC documentation in line with ITPs and method statements.
- Followup landscape infrastructure works including irrigation pipelines, storm tanks, excavation, and compaction.
- Managed site teams, logistics, and subcontractors to meet project timelines and resource plans.
- Conducted site inspections with QA/QC engineers and external inspectors follow up and resolved quality issues.
- Monitored civil and Qc works for compliance with project specifications, quality standards, and safety regulations.
- Ensured proper handling, storage, and use of construction materials and embedded items.
- Provided training to site supervision team procedures and promoted continuous improvement in quality practices.
- Collaborated with HS engineers to enforce safety protocols and environmental compliance.
- Supervised reinforcement and form work level and alignment vertical of wall column as per approved drawing
- Attended contractor progress meetings and maintained strong client-contractor relationships.
- Monitored QA/QC processes and submitted weekly reports detailing discrepancies, material shortages, and site issues.

Handling multiple Job roles like Qc Civil,Site coordinator Material engr, Batch Plant, Lab In Charge.

QC Civil : Conducted inspections and testing of civil works to ensure compliance with project specifications and standards. Maintained QA/QC documentation and coordinated with consultants for approvals.

Material Engr: Evaluated and approved construction materials based on technical specifications and project requirements. Managed supplier relationships and ensured timely delivery of certified materials. Prepare Trail mix for asphalt and concrete.

Civil Site Coordinator: Oversaw daily site operations, supervision, inspection coordinated between contractors, consultants.

Batch Plant In-Charge (Asphalt & Concrete): Supervised production of asphalt and concrete mixes, ensuring consistency and quality. Optimized plant operations and maintained equipment and quality and prepare Trail Mix..

Lab In-Charge: Led laboratory testing for soil, concrete, asphalt, and aggregates Material sample Receiving and Inspection. Ensured calibration of testing equipment and adherence to ASTM, AASHTO, ACI and BS standards.

Health and Safety Supervision :Enforced compliance with health and safety regulations, across multiple sites. Monitored and implemented safety procedures to prevent workplace accidents and promote a culture of safety.

Conducted regular safety training and awareness sessions for supervisory staff in coordination with corporate HSE.

شهادة خبرة Service Certificate

This is to certify that Mr. :

Ahmad Ali Baz Muhammad

Nationality : Pakistani

ID. No. : 2246807578

Was employed by SAUDCONSULT

From 15/09/2007 To 19/11/2017

And his last position in the company was

Materials Inspector

During his employment he carried out his duties in cooperation with his seniors, and his performance has always been good and in accordance with standard capabilities.

This certificate has been issued upon his request without any responsibility on our part towards the third party.

We wish him all success in his future career.

بعدمكم بان السيد :

أحمد علي باز محمد

الجنسية : باكستاني

رقم الإثبات : 2246807578

كان موظفاً لدى شركة الخدمات الاستشارية السعودية

خلال الفترة من 15/09/2007 إلى 19/11/2017

وأن آخر وظيفة كان يشغلها بالشركة هي

مراقب مواد

وقد قام بواجباته خلال عمله بالتعاون مع زملائه ومروؤسيه وكان أداءه جيداً وفق الكفاءة المطلوبة.

وبناءً على طلبه أعطيت له هذه الشهادة دون أدنى مسؤولية من طرفنا تجاه حقوق الغير.

تمنين له كل التوفيق والنجاح في حياته المستقبلية.

To Whom It May Concern:

Mr. Ahmad Ali S/o Baz Mohammad
has been worked as an engineer on
Al Wajh – Duba Road Project Section
(III) (136.5 Km), From March 2005 to
Date. 2007

During his involvement in the project
he has proved himself to be a reliable
and conscientious engineer who has
been a valuable member of the project
team.

I therefore, wish him every success in
his future career.

لمن يهمه الامر

المهندس احمد على باز محمد
لقد عمل المهندس احمد على مشروع
لطريق الوجه _ ضباء الجزء الثالث من
شهر مارس 2005 لغاية التاريخ
وخلال فترة عمله ابدى المهندس المذكور
نشاطا وتميزا في العمل بحيث كان من
العناصر الفاعله والمهمه لفريق عمل
المشروع.
نتمنى له دوام التقدم والنجاح في اعماله
المستقبلية .
