WORK EXPERIENCE

QC Manager | Larsen & Toubro, Al-Ahsa KSA

Apr 2022 – Till Date

Project: Jafurah Gas Compression Plant & PWIS Package-1

Client: Saudi Aramco

- Ensure Compliance with PQP, QC Procedures, ITP & Project Specifications.
- Mobilization of required Manpower resources as per Schedule Q requirements.
- Consolidate the Quality statistics & submit Monthly Quality management report & PQI to Company.
- Ensure all Quality deliverables submission on time
- Ensure submission & approval of Special Process Procedures & Inspection Test Plans on time.
- Attend MRM (Management Review Meetings) & review effectiveness of performance mitigation risks.
- Ensure submission and approval of work procedures, Personal qualification Procedures & Qualification of Personals.
- Coordinate with Saudi Aramco for Job clearance card for (Brazers, Coating personals, welders, Plumbers, RTR Installers, Splicers)
- Ensure execution of 15% & 60% Procurement & Construction Audits as per schedule.
- Trained and mentored new team members, improving team efficiency and reducing errors.
- Coordinate with Client (Saudi Aramco Project Inspection Department Team) to resolve Quality related problems on sites and attend both progress and technical meetings with them.
- Utilize software like QMIS to track customer interactions and follow up on pending issues, improving resolution time.
- Preparation of risk registers and Ensure submission of Project record books as per Contract requirements.
- **Achievements:** RFI Acceptance -98 % Saudi Aramco NCR-0, PQI >94%, Quality document Rejection Rate < 2%.

QAQC Manager | Larsen & Toubro, Dhahran KSA

Nov 2020 – Mar 2022

Project: Voltage Conversion Program PHASE-2 DHAHRAN

Client: Saudi Aramco

- Developed & Implemented QMS. Managing the development and implementation of the QMS for planning.
- Preparation & Approval of Project Quality Plan.
- Apply managerial expertise to achieve quality objectives within own area.

- Review Material requisitions, Technical Bid evaluation, Award recommendation, non-Material requirement & Inspection Assignment Packages prior to submission
- Ensure execution of Annual Audits as per schedule.
- Submission of Weekly deliverables to client.
- Sourcing of QC Personnel as per Schedule Requirements.
- Prepare Project quality index report & MQMR for submission on Monthly basis.
- Submission of MOM for MRM's & weekly Quality meetings.
- Attending weekly construction/QC meeting with Management & Client & ensure necessary action on client concerns.
- Ensure submission and approval of Quality deliverables, SPP, QCP, ITPs on time.
- Develop Training programs for QC Staff. Maintaining logs of training matrix.
- Ensure compliance with Saudi Aramco Schedules, standards, Engineering procedures & Material system specifications.
- Identify areas of improvement & best practices in existing products, leading to customer satisfaction and loyalty.
- Oversaw corrective action plans for non-conforming products, ensuring timely resolution of issues addressed in (NCR's, LBE's) to minimize impact on customers.
- **Achievement:** Initiated Process improvement through detailed root cause analyses resulting in 15% increase in efficiency.

QC Supervisor & Inspector |Larsen & Toubro, AL-Ahsa KSA

Jun 2015 – Oct 2020

Project: Replace Electrical Equipment at Southern Area GOSPs

Client: Saudi Aramco

Project: Replace Power Generation System Marjan – Safaniyah

- As a QC supervisor managing the QC Inspectors team for implementation of QA/QC Plan at site and solving their technical problems.
- Preparation of all Special process procedures and ITP's & ensure approval prior to start the activity.
- Preparation of personal Qualification procedures and coordination with Company for JOB Clearance cards.
- Conducting QC Initial surveys and Getting approval for Asphalt, Precast and Ready-mix Batch Plants and Third-Party labs.
- Coordinate with Third Party Labs and Batch Plants for documents and ensure submission as per contract requirements.
- Participate in the audit process and ensure all observations and Non conformances to be completed at the earliest.
- Ensure preservation requirements of Material should be fulfilled as per Material Preservation procedure and SAEP requirements.
- Monitor inspection progress, review inspection reports & documentation and verify upon completion of the work that all requirements have been met and required quality records have been collected and filed.
- Ensure closure of Non conformances and Logbook Entries within ACD.
- Submission of weekly logs (Concrete, FDT, Grout, Hydrotest, Preservation, NCR, LBE, RFI)
- **Achievement:** Led Training initiative for 30+ staff on quality improvement Practices fostering a culture of quality.
- As a QC inspector ensure Verification of fill placement and compaction of sub grade, select fill, aggregate base course, site grade and preparation works, formwork and rebar activities, concrete pouring works for light pole foundations, Transformer foundations, Rafts, manholes, Grout works, water proofing works, leak tests, Precast panel erection, Building architectural finishing works, swale and access road construction, ramp works, fencing works, Asphalt placement works, trench works, structural steel installation, and bolt tightening works.
- Recording defective works, ensuring corrective actions implementation & closure of NCRs within the ACD's.
- Prepare and deliver Toolbox Talks with site Staff prior to starting the work.
- Clearance of PMCC of the Project.
- **Achievement:** Conducted over 4000 Plus precise inspections & tests identifying non-conformities that led to 20% decrease in rework cost.

QC Inspector | Azmeel Contracting Company, Riyadh KSA

Apr 2015 – May 2015

Project: MGSE Booster Gas compression system-3 Saudi Aramco

Client: Saudi Aramco

- Prepare and deliver Toolbox Talks with site Staff prior to start the work
- Ensure that the work is being proceed according to contract document, Saudi Armco Typical Inspection Plan (SATIP), Saudi Armco Inspection Checklist (SAIC), Approved Drawings and Method Statement.
- Check availability & calibration of survey equipment. Perform counter check of survey points.
- Monitor fill placement and compaction of Sub-Grade & select fill material.
- Coordinate with the Independent Testing Laboratory in performing necessary tests and review all the tests result.
- Ensures all test reports are verified to meet the contract documents and project specification
- Prepare & submit nonconformance report for items observed deviating from the specification.

QC Inspector | China Communication Construction Company, Jeddah KSA Nov 2013 – Dec 2014

Project: Jeddah Storm Water Drainage Program Package -12

Client: Saudi Aecom

- Review Project specifications, Procedures, Method statements, ITP (Inspection and Test Plan) and Material Submittals.
- Provide Quality control service for installation of gravel bedding, Geotextile placement, RC Pipe installation works, and construction of manholes, box culverts, open channels & protection slabs. Grouting works, CLSM (Control Low strength material) & concrete pouring works, Trench restoration, Asphalt paving, rip rap works & water proofing, surface preparation and painting activities works.
- Witnessing the following test prior to and during construction such as field density test, Dry Film Thickness (DFT)
- Monitors the proper curing procedure of the newly poured concrete structures as per engineering standards
- Check availability & calibration of equipment. Performed regular calibration checks on inspection equipment, guaranteeing accurate measurements during evaluations.
- Co-ordination with the client and contractor Engineers for day-to-day technical matters & maintain inspection records.
- Conduct Toolbox Talks and raise Proactive notifications
- Immediately report to Quality Supervisor & Quality Manager regarding non-conformances of Quality Norms against Project Specifications and ensuring that all NCR's are closed within the agreed duration
- Maintaining complete Quality records for smooth handover of project.
- Clearance of PMCC of the Project

QC Engineer | Saudi Bin Ladin Group, Riyadh KSA

Jan 2009 – Jul 2013

Project: King Saud University Girl Campus Riyadh

Client: Ministry of Education

Project: Production of Precast concrete Elements

- Maintaining complete Quality records for smooth handover of project.
- Performed Inspection of rebar, Formwork & concrete for Precast Wall Panels of UMM-UL QURRA University, Makah gate, AL-Shamesi project, KASC Train Station, King Abdullah sports city & Shiama Haram extension Project.
- Inspecting product elements columns, cantilever beams, spines, Cazaly Hangers for Beam Resting support & Pre-stress Beams of King Saud University Riyadh.
- Managed the Quality Control activities of concrete works from Materials validation, Mix Design Establishment to concrete pouring, sampling and testing.
- Post Concrete inspection to ensure all regulations are explicitly followed.
- Monitors the proper steam curing procedure of the newly poured concrete structures as per engineering standards
- Attend materials receiving inspection together with the superintendent & client personnel.

- Attending weekly construction/QC meeting with Management & Client.
- Co-ordination with the client and Site Engineers for day-to-day technical matters & maintain inspection records.
- Ensuring relevant international standards ACI, ASTM & IBC specifications are strictly implemented.
- Prepare and submit monthly quality report to client.

Site Engineer | Descon Construction Company, Fateh Jhang Pakistan

Aug 2008 – Dec 2008

Project: Construction of Fauji cement Plant

Client: Fauji Cement

- Supervised slip forming activity for 80meter high circular silo to enhance work speed.
- Completed raft foundation of 2000 cubic meter concrete for Pre-heater building with safe man-hours.
- Monitor the execution work. (Pilling + super structure work)
- Provide guidelines for supervision for piling up to 50meter by Soil mech.
- Supervision of Boring, Sounding, Cage Lowering and Concrete Pouring of Piles.
- Supervision of excavation, steel works, Base Concrete, Wall Concrete.
- Checking drawings and quantities for accuracy of calculations
- To achieve the target as per the project schedule.
- Getting approval of all completed work from consultants.
- Planning, initiating, executing, and monitoring projects along time, cost and quality including technical (engineering) and techno-commercial coordination with all stakeholders.
- Preparation of daily progress reports and monthly progress reports.

Letter of Appreciation

Presented to: Larsen and Toubro Saudi Arabia LLC

At the very outset, Voltage Conversion Project Division would like to place on record our profound felicitation to **Larsen and Toubro's** project team for their notable efforts in commissioning and handing over the project within contractual schedule despite various challenges like COVID-19, Continuous public/vehicle movement, presence of underground utilities, availing various permission from authorities, working round the clock as per site requirement, attaining work during shutdown hours etc.

L TSA (Larsen and Toubro Saudi Arabia LLC) team has performed exceptionally well to recover various disruptions and managed to complete the project in line with contractual schedule with very high standard of safety and quality. By this achievement all staff contributing to this project and higher management of Larsen and Toubro had excelled in their efforts to support attaining this goal and proved their competence. The project director Mr. Nilotpal Chatterjee and the whole project team has demonstrated teamwork and highest dedication.

Thank you once again for all the hard work and dedication in building a successful team.

COMMENTS

Company has completed review of submitted CV and conducted interview of proposed Contractor QC personnel and found him qualified/approved to carry-out responsibilities of a Civil QC Inspector. His performances at site will be closely monitored and if found unsatisfactory while carrying-out duties and when found not adhering to Saudi Aramco Quality Standard implementation, this approval will be immediately revoked.

Contractor is requested to update the QA/QC organization table accordingly.
