PROFILE

With a Bachelor's degree in Landscape Architecture and years of hands-on experience, I am a dedicated and creative professional with a proven track record in designing innovative and functional outdoor spaces. My expertise spans across both residential and commercial projects, where I combine aesthetic vision with practical solutions to enhance the natural and built environment. My experience includes successfully completing a diverse range of projects, from urban parks and public spaces to private gardens and commercial landscapes. I am passionate about creating environments that not only meet functional needs but also enhance the quality of life for users and foster a connection with nature.
