## Electrical Maintenance

### PROFESSIONAL SUMMARY

A disciplined Electrical Maintenance Professional with field experience in Saudi Aramco (WRTD) environments. Proven expertise in operational safety, Work Permit Systems (PTW), and industrial assembly. Recognized as a top-tier student and selected to represent NITI at Electrathon 2025 for renewable energy projects. Combines technical field-readiness with advanced professional reporting and a strong commitment to safety standards.

### WORK EXPERIENCE

#### Ashi & Bushnag Co (Contractor for Saudi Aramco)

Jeddah

Electrical Equipment Assembler

Nov 2024 – Present

- Training Phase: Completed 9 months of intensive technical training at the National Industrial Training Institute (NITI), focusing on industrial electrical systems and safety.
- Operational Readiness: Successfully cleared all Saudi Aramco Facility Safety.
- Orientations (FSO) and compliance requirements for the Western Region Terminal Department (WRTD).
- Site Mobilization: Demonstrated high adaptability and commitment by mobilizing to remote project sites (Yanbu) to support the establishment of new Aramco infrastructure.
- Compliance: Fully trained in Work Permit (PTW) systems and Aramco Safety Management Systems (SMS), ready for immediate deployment in high-stakes electrical installations.

#### Brmaja Company

Jeddah
