

AZHAR ALI

Civil Engineer

Email: lakhiaxhar33@gmail.com Mobile: +966-595921569

Saudi Council of Engineers (SCE): Yes

Driving License: Valid

Iqama Status: Valid and transferrable

PROFILE SUMMARY

- Proficient Civil Engineer with over 6 years of experience in managing and executing construction projects, ensuring quality control, safety compliance, and timely completion. Skilled in site supervision, stakeholder communication, and documentation. Quick to adapt and capable of integrating seamlessly into project teams to drive efficiency and results.

PROFESSIONAL EXPERIENCE

Hanadhy Alharby- Civil Engineer

Dec 2025 to Present

- Supervised site preparation, leveling, and layout marking as per approved drawings.
- Coordinated foundation works including PCC blocks, strip footings, raft slabs, and steel base frames.
- Ensured proper soil compaction and load-bearing verification prior to cabin installation.
- Supervised unloading, lifting, and placement of porta cabins using cranes and forklifts.
- Ensured correct alignment, leveling, and interconnection of modular units.
- Inspected bolting, welding, and structural fixing works during erection.
- Supervised roof sealing, waterproofing, and joint treatment between cabins.
- Managed internal finishing works including flooring, partitions, doors, windows, and ceilings.
- Coordinated electrical installations including wiring, lighting, DB panels, and power connections.
- Supervised plumbing works for toilet and pantry cabins including water supply and drainage systems.
- Coordinated HVAC/AC installation and testing.
- Conducted quality inspections to ensure compliance with project specifications and standards.
- Prepared daily progress reports, manpower planning, and material tracking.
- Coordinated with clients, consultants, subcontractors, and suppliers.
- Ensured strict adherence to safety procedures during lifting and installation activities.
- Conducted toolbox talks and enforced PPE compliance on site.
- Identified and rectified snag list items prior to handover.

AL BAWANI – Civil Engineer

Jun 2025 to Sep 2025

- Supervised and inspected all civil works to ensure compliance with project specifications, and international standards.
- Implemented quality control procedures for concrete works (slump test, temperature checks, cube/cylinder sampling, curing, compaction).
- Monitored subgrade, sub-base, and backfilling compaction through field density tests (FDT) to achieve required standards.
- Reviewed and approved method statements, ITPs, and material submittals in line with project and client requirements.
- Coordinated and raised Inspection Requests (IRs), liaising with consultants for timely approvals of works.
- Ensured correct application of waterproofing, insulation, and protective systems in basements, wet areas, and roof works.
- Conducted site inspections and audits, handling NCRs ensuring corrective actions were implemented.
- Managed QA/QC documentation including daily reports, test logs, and QA/QC records for consultant/client audits.
- Collaborated with MEP and architectural teams to resolve quality-related issues and interface conflicts.
- Ensured full compliance with ISO 9001:2015 QMS procedures and supported internal/external audits.
- Promoted a strong safety and quality culture during all inspection and testing activities.

M/s Fahad Engineers and Contractors – Civil Engineer

Sep 2024 to Apr 2025

- Supervised removal of damaged asphalt, milling operations, and preparation of existing pavement surface for rehabilitation works.
- Checked pavement distress conditions (cracks, rutting, potholes, bleeding, and raveling) and recommended appropriate repair treatments.
- Monitored patching, crack sealing, pothole repair, and asphalt overlay works to ensure proper bonding and compaction.
- Ensured proper application of tack coat and prime coat as per specified spray rates before laying new asphalt layers.
- Verified asphalt temperature, mix uniformity, roller passes, and compaction levels to achieve required density and smoothness.
- Conducted Field Density Tests (FDT), Core Cutting Tests testing to maintain quality compliance.
- Coordinated traffic diversion plans to ensure safe, continuous vehicle flow during rehabilitation works.
- Inspected installation and replacement of road signage, guardrails, pavement marking, and road safety features.
- Prepared Inspection Requests (IRs), daily progress reports, test reports, and close-out documentation for client approval.
- Coordinated with Consultants, Contractors, and Laboratory teams to resolve technical issues and maintain project schedules.

SAFCO Support Foundation – Civil Engineer**June 2023 to July 2024**

- Supervised and executed civil construction projects including site preparation, foundation work, and structural development.
- Conducted site inspections to ensure compliance with engineering standards, safety regulations, and project specifications.
- Monitored daily progress and submitted weekly reports to senior engineers and project leads.
- Ensured quality control through material testing, documentation, and rectification of site deviations.
- Supported community infrastructure projects in underdeveloped areas under NGO-led development schemes.
- Assisted in planning low-cost housing and water sanitation systems to improve rural living standards.
- Conducted land surveys, plotted layouts, and maintained site records.
- Participated in stakeholder meetings and communicated project updates to donors and regional officers.
