## PROFESSIONAL SUMMARY

At Defence Housing Authority Quetta, my role as QA/QC Engineer was characterized by steadfast commitment to material excellence. The team's efforts in quality supervision have significantly elevated project standards, particularly in concrete and asphalt mix designs. Our collaboration ensures all materials not only align with but also surpass industry benchmarks, drawing upon my proficiency in laboratory management and project engineering. Leveraging my credentials as a Professional Engineer, and with a focus on quality management, I've played a pivotal role in the success of our construction projects. My dedication to operational excellence is reflected in our adherence to ACI and MS-2 standards. This unwavering pursuit of quality is not just a professional mandate, but a personal mission to ensure the integrity and success of each endeavor we undertake at DHA Quetta. QA/QC Manager and Material Engineer specializing in geotechnical engineering and site investigation. Proficient in quality management, quality auditing, and material testing to ensure compliance and enhance project reliability. Focused on driving excellence and innovation in construction quality standards for sustained operational success.

## SKILLS

- Quality Management
- Quality Auditing
- Material Testing
- Geotechnical Investigation
- Six Sigma

## EXPERIENCE

Jan 2021 – Feb 2026

### QA/QC Engineer

Defence Housing Authority (DHA)

- Develop comprehensive quality management frameworks to ensure regulatory compliance and improve overall product reliability in complex project environments.
- Coordinate cross-functional teams to streamline inspection processes, resulting in faster issue identification and enhanced operational efficiency.
- Implement corrective action protocols that address non-conformities promptly, minimizing safety risks and maintaining industry standards.
- Oversee supplier quality assessments to guarantee adherence to specifications, thereby reducing material defects and improving customer satisfaction.
- Analyze quality data trends to inform continuous improvement initiatives, increasing process predictability and reducing variability in deliverables.

Nov 2019 – Jan 2021

### QA/QC Engineer

Shaaz Engineering Consultant

- Prepare PQPs, ITPs, MARs, MIRs, NCRs
- Performed audits of different projects
- Selection and supervision of best suitable Construction Materials used at project
- Preparation of Concrete Mix designs for all classes of concrete required at project as per project specification as well as American Concrete Institute (ACI) 211.1.1

- Preparation of Asphalt Mix Designs for both Base and Wearing Courses as per project specification and MS-2 Latest edition
- Routine quality check on site as well as in Site Laboratory Liaison with Client and contractor staff for quality control Laboratory and site record management

July 2016 – Oct 2019

**QA/QC Engineer**

National Logistics Cell

- Prepared Project Quality Plans (PQP), ITPs, MARs, MIRs, NCRs etc
- Performed audits and prepared audit reports.
- Selection and supervision of best suitable Construction Materials used at project Preparation of Concrete Mix designs for all classes of concrete required at project as per project specification as well as American Concrete Institute (ACI) 211.1.1
- Preparation of Asphalt Mix Designs for both Base and Wearing Courses as per project specification and MS-2 Latest edition
- Routine quality check on site as well as in Site Laboratory Liaison with Client and contractor staff for quality control Laboratory and site record management

Feb 2014 – Apr 2016

**QA/QC Inspector**

Xinjiang Beixin Road and Bridge Group Company Ltd

- Maintained a high level of accuracy in test results by following strict quality control procedures.
- Operated basic laboratory equipment for Soil, Concrete and Asphalt such as Proctor, CBR, Field CBR, Compressive Strength Machine, Marshal Stability Machine, Bitumen Penetrometer, Ductility Machine, Rolling Thin Film Oven and many more
- Performed testing and quality control using approved laboratory procedures and instrumentation in the light of Project and International Standards
- Maintained Lab record

**EDUCATION**

Feb 2024 – Feb 2026

**Master of Science in Civil Engineering**

NUST, Quetta

Sept 2009 – Dec 2013

**Bachelor of Science in Geological Engineering**

BUIITEMS, Quetta

**CERTIFICATIONS**

July 2025

**ISO 9001:2015 Lead Auditor (QMS)**

CQI IRCA

Apr 2024

**ISO 17025:2017 (LMS)**
