Employment

Environmental Manager – Construction works **Nov 2023 - Present**
Al Hassanain Contracting Company
Scope of Work & Achievements:
 Lead environmental management for construction project, ensuring compliance with national environmental regulations and international standards (ISO 14001 & ISO 45001).
 Conduct baseline environmental studies and support the preparation, review, and implementation of EIA, CEMP, CESMP, and OESMP documentation.
 Manage and monitor air quality, water quality, soil, and noise, including sampling programs, environmental inspections, and monitoring schedules.
 Identify environmental risks associated with construction activities, and develop and implement effective mitigation and control measures.
 Implement site-level environmental controls, including spill prevention, wastewater management, hazardous material handling, and waste segregation.
 Oversee construction waste management, recycling activities, and pollution prevention measures in accordance with project and regulatory requirements.
 Conduct environmental inspections, audits, and compliance assessments, issuing Non-Conformance Reports (NCRs) and managing corrective and preventive actions.
 Prepare and submit environmental monitoring reports, compliance reports, incident reports, and audit documentation to clients and regulatory authorities.
 Coordinate with contractors, consultants, clients, and regulatory authorities (EPA, NCEC, and relevant environmental bodies) to support approvals and inspections.
 Supervise contractor environmental performance and ensure full implementation of approved environmental controls.

Environmental Manager

Jun 2021 - Sep 2023

Riyadh Geotechnique & Foundations Co.

Scope of Work & Achievements:

Conducting Base line study, EIA report and CEMP of the project and its site compliance.

Lead environmental management for geotechnical and construction operations in compliance with national regulations and ISO 14001 Environmental Management System.

Conduct air, water, soil, and noise monitoring; manage sampling programs and environmental inspection schedules.

Identify risks related to drilling, excavation, and soil subsurface activities and develop impact mitigation plans.

Manage contractor performance and ensure full implementation of environmental controls: spill prevention, dust suppression, water management, material handling, and waste segregation..

Coordinate with consultants, clients, and regulatory authorities on compliance submissions and approvals.

Conduct internal training on environmental awareness, chemical handling, and housekeeping standards.

Environmental Coordinator – Mining Operations

Mar 2017 - Feb 2020

M/S Esmaille Minerals

Scope of Work & Achievements:

Review and evaluate environmental documents including Construction Environmental and Social Management Plans (CESMP), environmental plans, method statements, and contractor reports.

Ensure regulatory compliance with all environmental laws, regulations, and standards.

Monitor environmental performance and report on key performance indicators (KPIs) and making monthly Environmental reports.

Coordinate environmental activities throughout exploration, mine development, and extraction phases.

Support environmental baseline studies, GIS mapping, slope analysis, hydrogeological assessments, and groundwater monitoring.

Monitor waste dumps, overburden management, land disturbance, and reclamation activities.

Implement mine-site environmental protection procedures including dust control, blasting impacts, water runoff control, and waste handling.

Develop and update mine-specific Environmental Management Plans (EMP) and compliance documentation.

Liaise with mining authorities and environmental regulators to obtain/renew approvals and ensure adherence to mining standards.

Conduct toolbox talks, environmental trainings, and awareness programs for mining teams.

Environmental Officer – Exploration & Mine Development

Feb 2016 - Feb 2017

Indus Mining (Pvt.) Ltd.

Scope of Work & Achievements:

Performed environmental inspections, TBT, site walk through, site observation waste audits, and compliance monitoring for exploration and mining activities. Supported preparation of EIA/EMP documentation, environmental maps, and impact assessments.

On field Monitored dust generation, waste management, hazardous material storage, and fuel handling across operational areas.

Conducted Air quality Noise quality water testing, soil sampling, and environmental quality assessments.

Assisted implementation of mitigation measures and reviewed environmental performance of contractors and field teams.

Environmental Officer

Aug 2015 - Jan 2016

Jabori Hydropower Project

Scope of Work & Achievements:

Conducted environmental monitoring for tunneling and underground works including vibration air quality noise, groundwater, and slope stability

assessments.

Managed water discharge monitoring, tunnel ventilation checks, and waste handling compliance.

Prepared daily environmental logs, site inspection reports, and assisted in risk mitigation planning.

Ensured adherence to environmental protection standards during construction in sensitive zones.
