PROFESSIONAL SUMMARY

PMP®-certified Civil Site Engineer with over 7 years of progressive experience in infrastructure, roads, and drainage projects across Jordan and Bahrain. Proven track record in site supervision, FIDIC contract management, subcontractor coordination, cost control, and HSE compliance. Skilled in Primavera P6 and MS Project scheduling, with hands-on experience managing concurrent multi-million-dollar municipal projects. Seeking a Senior Site Engineer or Project Manager role within the GCC.

PROFESSIONAL EXPERIENCE

Site Engineer : Greater Amman Municipality

Amman, Jordan | Nov 2025 – Present

- Supervise infrastructure and road projects, coordinating with contractors to maintain schedule compliance and quality standards.
- Conduct daily site inspections to ensure HSE compliance and adherence to technical specifications.
- Prepare and submit progress reports and technical documentation to senior management and consultants.
- Coordinate with subcontractors and consultants to resolve technical issues with minimal disruption to site activity.

Site Engineer : Al-Bawab Contracting

Al Rifaa, Bahrain | Jan 2025 – Nov 2025

- Managed all daily construction activities for the Bin Faqeeh School Project, ensuring work aligned with approved shop drawings and FIDIC contract specifications.
- Coordinated subcontractors and suppliers for materials and scheduling, maintaining on-time delivery.
- Conducted quality inspections and raised NCRs when required; project was handed over on time with no major quality deficiencies.
- Applied value engineering approaches to resolve construction challenges without impacting project cost or timeline.

Site Engineer : Greater Amman Municipality

Amman, Jordan | 2019 – 2024

- Supervised construction of roads, drainage networks, and public infrastructure across several concurrent projects with a combined value exceeding JD 5 million.
- Monitored project progress against Primavera P6 and MS Project schedules; identified and flagged delays early with proposed corrective actions.
- Reviewed and verified BOQs and quantities to support cost control and prevent budget overruns.
- Prepared daily and monthly progress reports submitted to consultants and senior management.
- Ensured full HSE compliance and conformance with technical specifications and municipal standards on all active sites.
- Coordinated with contractors and consultants to resolve technical issues without disrupting site productivity.

Surveyor : Greater Amman Municipality

Amman, Jordan | 2016 – 2017

- Carried out topographic and construction surveys, verifying levels and measurements on site.
- Maintained and calibrated surveying instruments to ensure accurate field readings.
- Prepared survey reports and calculations for the engineering team.

KEY ACHIEVEMENTS

- Delivered Bin Faqeeh School Project on time with zero major quality non-conformances at handover.
- Supervised multiple concurrent infrastructure projects at GAM with a combined value exceeding JD 5 million.
- Consistently identified schedule delays early and implemented corrective actions, avoiding cost overruns on municipal projects.

- Maintained full HSE compliance across all supervised sites throughout 7+ years of site operations.

TECHNICAL SKILLS

Project Management: PMP® Certified, Primavera P6, MS Project, Project Scheduling, Risk Tracking, FIDIC Contracts, Stakeholder Coordination, Cost Control, Value Engineering

Engineering: Site Supervision, Roads & Infrastructure, Drainage Networks, BOQ Verification, Quantity Surveying, HSE Compliance, Subcontractor Management, NCR Management, Shop Drawing Review

Software: AutoCAD, Civil 3D, Primavera P6, MS Project, Microsoft Office (Word, Excel)
