Position Applied for : Senior Construction Manager

CAREER OBJECTIVE

Experienced construction professional with over 30 years of expertise in technical and contractual management, project execution, architectural finishing, coordination, and quantity surveying. Proven ability to lead multidisciplinary teams, streamline project processes, and deliver high-quality outcomes within time and budget constraints. Adept at optimizing resources, resolving technical challenges, and maintaining strong stakeholder relationships. Seeking a challenging role where I can apply my extensive knowledge to drive project success, support organizational growth, and further enhance my leadership and strategic planning capabilities.

EDUCATIONAL QUALIFICATION

01/1994

Degree Civil Engineering

Government College Ratnagiri - Ratnagiri, Maharashtra, India

ADDITIONAL SKILLS

Microsoft Office, Auto-Cad 2007

Training Primavera Project Planner (P6), KLG SYSTEL LTD, Bombay.

PROFESSIONAL EXPERIENCE

Project Manager

Company : SAARIA CONTRACTING COMPNAY (SCC)

From : 2022 to Present

PROJECTS:

❖ The House Hotel Project - AIMS Jeddah (Ongoing).

The House Project is a hospitality development consisting of hotel accommodations and car parking facilities, with a total built-up area of approximately 15,000 square meters. Project Contents: Technical floors, Tower floors (hotel guest rooms), Main hotel lobby floor, Swimming pool area, Basement floors designated for car parking. The project integrates guest accommodation, hospitality facilities, and supporting technical infrastructure to ensure efficient hotel operations and guest services.

❖ Mock Up Room Al Ahsa Palm Project – DAN Company

The project scope includes the design development and construction of three model hospitality rooms along with external area development. The works also include the supply and installation of Furniture, Fixtures & Equipment (FF&E) and Operating Supplies & Equipment (OS&E).

Project Components: Agri Villa: Two-bedroom villa with private swimming pool. Wellness Room: King guest room. Adventure Room: Standard double queen guest room. External Works: Site area development; Parking facilities; Landscape works; Associated infrastructure and finishing works. This scope integrates architectural development, interior fit-out, FF&E installation, and external landscaping to deliver fully operational hospitality units.

❖ Jabal Omar Development Project Makkah (Phase II – S3 & S4) – (As a Senior Construction Manager)

The Jabal Omar Development Project is a unique urban re-generation scheme purposing to provide hotel accommodations, commercial/retail spaces, car parking, public spaces and public amenities to support religious, social and commercial activities to Hajj and Umrah pilgrims all year round. (Built up floor area is approximately Towers – 91,131.00 Sqm and Podium – 98,815.00 Sqm.). Project Contents: Technical floors, Tower (hotel rooms) floors, Villas floors, Hotel lobby floor, Basement (car park) floors & Commercial /retail floors.

Key Responsibilities:

- Led comprehensive reviews of shop drawings, Bills of Quantities (BOQs), and project specifications to ensure accuracy, clarity, and full alignment with project objectives and scope.
- Oversaw precise estimation of materials, equipment, and manpower requirements, enabling cost-effective and resource-efficient project execution.
- Ensured the timely release of approved shop drawings, facilitating proactive material planning, and accelerating project initiation.
- Developed and submitted detailed construction plans to client representatives, demonstrating structured and goal-oriented project delivery strategies.
- Prepared method statements in line with industry best practices, ensuring all site operations adhered to quality, safety, and procedural standards.
- Created and maintained a forward-looking construction schedule, identifying critical milestones and enhancing overall project visibility and tracking.
- Worked closely with the planning team to regularly update and optimize schedules, ensuring team alignment with project timelines and deliverables.
- Coordinated with procurement and suppliers to ensure timely delivery of materials to the site, preventing disruptions, and maintaining workflow continuity.
- Led regular meetings with site supervisors and staff to communicate project requirements, monitor progress, and foster a collaborative work culture.
- Represented the project in key meetings with clients, consultants, and third parties, building strong stakeholder relationships and ensuring transparency.
- Conducted routine site inspections to verify compliance with safety regulations, quality standards, and building codes, prioritizing risk mitigation and excellence.
- Monitored and controlled construction progress against baseline schedules, swiftly addressing any deviations to ensure timely completion.
- Successfully managed project close-out processes, delivering complete documentation and ensuring a smooth handover to clients and commissioning teams.

Senior Construction Manager

Company : MASMAK RAY CONTRACTING EST. RIYADH, K.S.A
From : 2019 to 2021

PROJECTS:

- ❖ Dossary Compound (G +1) Villa (25 No) including infrastructure work Riyadh.
- ❖ Hotel Crown Plaza Renovation work (Exterior Shisha Lounge, Café Lounge and Linear pool) Riyadh.
- ❖ Ra'idah Digital City closing the snag list and remaining work (Pedestrian walkway, Asphalt Road, workshop building finishing work, DCP garden)

Key Responsibilities:

- Conducted in-depth reviews of IFC drawings, BOQs, and specifications to ensure full alignment with project scope and execution strategy.
- Estimated material quantities and identified necessary equipment to support efficient resource planning and site productivity.

- Ensured timely approval and release of shop drawings to facilitate uninterrupted material procurement and site mobilization.
- Developed comprehensive construction method statements and execution plans, emphasizing quality, safety, and operational efficiency.
- Created and maintained look-ahead schedules; worked closely with the planning team to align deliverables with client expectations and project milestones.
- Collaborated with procurement teams and suppliers to ensure prompt material delivery, minimizing risk of delays.
- Monitored construction progress against baseline schedules, taking corrective actions to address variances and maintain momentum.
- Represented the project in meetings with clients, consultants, and stakeholders to ensure transparency, alignment, and collaborative problem-solving.
- Chaired internal coordination meetings, clearly communicating project objectives to team leads and promoting a performance-driven culture.
- Enforced strict adherence to quality control procedures and safety regulations across all site operations.
- Negotiated and managed change orders with subcontractors to accommodate evolving project needs while maintaining budget and schedule integrity.
- Prepared and submitted monthly progress reports and accurate As-Built quantity submissions for invoicing and documentation.
- Reported key cost and schedule deviations to senior management, enabling informed decision-making and executive oversight.
- Led final project handover and closure processes, ensuring compliance with client requirements and a seamless transition to operations or occupancy.

Senior Construction Manager
