SUMMARY

Professional Experience Summary

14 years of experience in production management, operations, maintenance, and project management within industrial and manufacturing environments.

Production Engineer (4 Years) Metal Forming & Production Plants Managed and supervised production processes in metal forming industries.

Gained hands-on experience in:

Production planning and control

Quality assurance and quality control (QA/QC)

Operation of production lines

Contributed to improving efficiency and reducing defects.

Maintenance Project Engineer (5 Years) Sudan Seaports Authority (Shipyard)

Led maintenance and project activities in shipyard operations.

Specialized in:

Hull maintenance and repair

Welding operations and metal plate forming

Maintenance of mechanical and industrial equipment

Developed strong skills in:

Project planning and execution

Inventory management and material control

Preparing technical specifications

Handling external purchase orders and supplier coordination

Project & Production Manager (5 Years – Present)

Managing manufacturing and installation of:

European aluminum tents

Prefabricated houses and caravans

Responsible for:

Full project lifecycle (planning, execution, delivery)

Production management and optimization

Team leadership and coordination

Technical expertise includes:

AutoCAD and CAD/CAM software

CNC machine programming and operation

Key Skills

Project Management (PMP Certified)

Production Planning & Control

Maintenance Management

Quality Control (QA/QC)

Supply Chain & Procurement

Technical Specification Preparation

CNC Programming & CAD/CAM Design

Procurement Processes

Welding process

Steel forming process

CADCAM

Autocad

CERTIFICATIONS AND LICENSES

1. **Porjects Management Professional(PMP)**
2. **Google Project Management**
3. **Drive license**
