## PROFESSIONAL SUMMARY

Results-driven Civil Engineer with 3+ years of field experience managing multi-discipline construction projects across Saudi Arabia. Proven track record coordinating subcontractors, enforcing QA/QC standards, and delivering structural, roadway, and pavement scopes on schedule. Trilingual (Arabic, English, Somali) with deep familiarity with KSA construction environments.

## EXPERIENCE

### Site Engineer

Jun 2022 – Jan 2024

*Huda Saeed Mohd. Hoori For Gen. Contracting Est. · Al Khobar, KSA*

- Managed end-to-end delivery of structural pad and access road projects, coordinating 10+ subcontractors and suppliers to achieve on-time, on-spec completion.
- Enforced QA/QC compliance across all site activities, eliminating rework incidents through daily inspections and real-time issue resolution.
- Established project milestone schedules and resource allocation plans, reducing on-site delays and improving workflow efficiency across critical project phases.

### Civil Engineer

Feb 2023 – Jun 2023

*Hussein Al Mayzad Co. · Dammam, KSA*

- Developed and executed detailed schedules for asphaltic paving and CLSM operations, achieving 100% on-time scope delivery with zero rework or safety incidents.
- Coordinated cross-functional teams and optimized resource allocation, streamlining execution of critical civil works across concurrent work fronts.

### Junior Engineer

Nov 2021 – Jun 2022

*National Contracting Company (NCC) · Al Jubail, KSA*

- Supported structural design and construction planning under senior engineers, contributing to code-compliant execution of project drawings and specifications.
- Conducted regular site inspections against structural drawings, identifying and resolving design discrepancies before they impacted schedule or cost.

## EDUCATION

### Bachelor of Science in Civil Engineering

*University of the Cordilleras, Baguio City, Philippines*
