Project:	Operational Asset at logistic Laydown Area Project.
Main-Contractor:	MID Arabia Contracting Company
Client:	Trojena NEOM
IPMT :	Bechtel
Location:	Jabal Loz Trojena, Saudi Arabia

2. Alnouby United Contracting Company | Nov 2023 to Dec 2024

Designation	QC Civil Inspector
Project:	D&B Renovation Projects in Recreation Facilities – NC 1. Neom Community 1 Gate 4 Area Enhancement Project.
Client:	NEOM
Location:	Sharma, Neom community 1 Saudi Arabia

3. Freyssinet Saudi Arabia | Dec 2021 to Oct 2023

Designation	QAQC Civil Inspector
Project:	King Salman Park-CP03 O&M Building-Riyadh
PMC:	WSP Global
Location:	Riyadh Saudi Arabia

4. [Maqbool Construction Company | Jan 2020 to Oct 2021](#)

Designation	Civil Site Inspector
Projects:	Swat Expressway and Tunnels.
Client:	Frontier Works Organization (FWO).
Location:	Pakistan

● **Key Responsibilities as a QA-QC Engineer- Civil**

- Ensuring project quality objectives have meet according to engineering standards and specifications.
- Ensuring material received meets the project standards and specifications.
- Issuing NCR and proactive measures to be taken.
- Review of IFC drawings.
- Monitor the execution of civil works performed at site and ensure the implementation of the approved drawings and standards.
- Coordinate with technical/ engineering team to ensure that the work is executed as per the approved drawings and project specifications.
- Receiving of materials on site as per the approved submittals and engineering standards.
- Assisting the Site Supervisor to review the locations of existing utilities for possible conflicts and relocation.
- Maintain contact with civil engineering and Procurement department to ensure an up to date knowledge of materials and techniques.
- Attending meeting for review of work procedures for continual improvement.
- Examine and inspect work progress, equipment and construction sites to verify safety.
- Prepare and submit the Concrete tests, Backfilling, excavation etc report to the Consultant for review and approval.
- (ITP's) and reporting documents for Client approval and to implement accordingly.
- Method of statement preparation for all activities on project site.
- Maintain the site lab logs and test certificates.
- Maintain all records for material submittal and approval from client.
- Review and approve material submittals, supplier data sheets, certificates of conformity and Hold Points for critical items (reinforcing steel, anchor bolts, aggregate sources, backfill material).
- Ensure MTR traceability and store Manufacturer Test Reports.
- Raise and manage NCRs (non-conformance reports) and INCRs.
- Prepare and maintain daily QC Daily look ahead plan (DLA) and Quality weekly presentations.
- Raising WIRs for as per activity of the works.
- Inspection of ongoing work and correcting it according to contract drawings, and specifications.
- Review and comments on civil shop drawings.

- Coordinate QA/QC activities with Civil Construction teams.
- Performing activity inspection with Client & PMC Engineers during absence QCI.
- Maintain a good working relationship with the Client and earn respect through a professional approach and a quality-controlled performance.
- Carry out/coordinate daily inspections for earthworks, subgrade preparation, formwork, reinforcement, concrete placement & curing.
- Verify anchor bolts, grouting, structural steel foundations, and drainage. As per drawing and project specification.
- Witness and record material testing (concrete compressive strength, slump, Sieve analysis for aggregates, CBR, density tests, concrete cube tests).
- Conducting field tests with the third parties.
- Punch Listing.
- Conducting Quality tool box.
- Monitoring PEB and Precast concrete constructions.
- Grouting activities.

- **Key Responsibilities as a QAQC Engineer ARCH (Building line)**

- Scope: LGS Framing, Gypsum/Cement Board Installation, Rock Wool Insulation, and Wall Closure.
- Pre-Installation Activities.
- Review approved project specifications, drawings, method statements, and material submittals for compliance. Verify that all materials (LGS, gypsum board, cement board, insulation, accessories) delivered to site meet project standards and are stored properly. Ensure that only approved materials and tools are used for the works.
- LGS (Light Gauge Steel) Frame Installation Monitor and inspect the installation of LGS framing to ensure alignment, verticality, and fixing as per approved shop drawings. Verify that the spacing of studs & runner, gauge, and profiles of LGS members are as per design and specifications. Check proper fastening (screws, anchor bolts) and bracing to ensure stability.
- Gypsum/Cement Board Installation.
- Inspect board type and thickness based on location (Wet/Dry/Fire stop areas). Check proper alignment, board fixing (screw spacing, edge distance), joint staggering, and no visible gaps or damages. Ensure that cut-outs for MEP penetrations are properly sealed.
- Rock Wool Insulation Installation: Verify material type, thickness, and density are as per specification.
- Wall Closing and Finishing: Ensure all required inspections (including MEP) are conducted before wall closure.
- Conduct inspection of surface preparation and application of paint on gypsum board to ensure compliance with project specifications and approved material submittals.
- Monitor the installation of ceiling systems (gypsum/metal/acoustic) for alignment, level, and

secure fixing in accordance with shop drawings and method statements.

- Inspect the installation of ceramic and porcelain tiles, including skirting, ensuring correct layout, level, spacing, and adhesion per project standards.
- Ensure proper curing and cleaning of tiled surfaces before and after grouting.

● **Key Responsibilities as a QC Inspector - Civil (Infrastructure & Building line)**

- Preparations of ITPs and material approval requests (MAR).
- Inspection of delivered material and raising material inspection requests (MIR).
- Raising WIRs for as per activite of the works.
- Issuing of SOR and INCR.
- Inspection of ongoing work and correcting it according to contract drawings, and specifications.
- Performing activity inspection with Client & PMC Engineers.
- Follow up with all sub-contractors about reports and testing.
- Prepare and maintain daily QC Daily look ahead plan (DLA) and Quality weekly presentations.
- Witnessing of testing FDT, Concrete at site and crushing, Asphalt testing.
- Maintain all records for material submittal and approval from client.
- Ensuring that the concrete delivered from batching plant is in workability limits, slump test and temperature test is within recommended limits.
- Ensure making cubes and cylinders on sites for seven- and twenty-eight-day tests according to specifications and following test results.
- Inspection of formwork and reinforcement at site and ensuring that the material used is in proper condition.
- Inspection of concrete work, tile work, painting, grouting, joint sealants applications, false ceiling work, waterproofing, termination, rise flooring installation, chain link fences, road guard rail, road signages, gantry structures, pipes installation, duck banks, paving slabs, doors and windows fixing and approval from client prior to further work.

● **Project Milestones**

- Approved Project Quality Plan (PQP) and discipline ITPs.
- Daily/weekly inspection reports and NCR register with CAPA tracking.
- Material Acceptance Reports / MIRs / MTR register and traceability matrix.
- Test certificates, concrete cube test summaries and site lab records.
- Audit reports, non-conformance trend analysis and corrective/preventive action plans.
- As-built markups and QA pack for handover (including FAT records for civil-related items)
- Preparations of ITPs and material approval requests (MAR).

● Key Responsibilities as a Civil Site Inspector

- Managing labors and material at site.
- Coordination with site supervisor and approval of work at site.
- Maintain site records, prepare site reports and submit it to Manager of the company.
- Conduct regular meeting with consultant and discuss the work-related issues.
- Conducting regular meetings with the manager and time lining all the activities.

● Work Summary

- Asphalt road construction.
- Excavation and backfilling for road, heavy structure works.
- Manhole and handhole construction.
- Slope protection works.
- Finishing work like ceramic and rubber tile, painting, false ceiling, raised flooring, doors installation.
- Overhead Road Gantry structure and metal guard rail works.
- Chain link fences and bird screens.
- Water proofing, damp proofing and lining of structures.
- Testing of concrete, soil, Asphalt work and Grout.

EDUCATIONAL SUMMARY

Bachelor in Civil Engineering Technology	Sarhad University of Science & Information Technology, Peshawar-(2017-2021)
Diploma of Associate Engineer (DAE)	Peshawar Institute of Technology, Mardan Campus (2014-2017)
High School	Secondary School Certificate-(2013)

● Professional Certificates and Approvals

- Approval from **NEOM** as QC Inspector Civil.
- **QMS ISO9001:2015** | QMS ISO9001:2015 lead Auditor Training Course, Certified by CQI-IRCA
- **PRIMAVERA P6** | Professional Certified of Primavera P6 from Oracle Corporation.
- **IOSH** | Institution of Occupational Safety and Health.
- **OSHA** | Occupational Safety and Health American Council.
- Registered with Pakistan Technology council as a registered Engineer Technologist.
- Reg No: Eng. Tech/Civil/03223.
- Safety performing award from TAMIMI GLOBAL COMPANY in Neom public safety & command center project.
- **Diploma In Information Technology**

- **Skills**

- Excellent communication skills.
- Flexibility to work under pressure and in different environment.
- Team working and relationship-building skills.
- Problems solving skills.
- Leadership skills.
- Excellent organizational and administrative skills.

- **Software Skills**

- AutoCAD 
- Acconex KSA 
- Primavera P6 
- MS Office 

- **Languages**

- Arabic, English, Urdu and Hindi.

- **REFERENCES**

- **Available upon request.**

- **Declaration**

- I hereby declare that the above-furnished information is true and correct to the best of my knowledge and belief.
