## SUMMARY

As a passionate Architectural Engineer with a strong foundation in innovative design and sustainable practices, I am eager to contribute my skills to your esteemed team. My commitment to excellence and collaborative spirit align perfectly with your vision for creating impactful structures. I am excited about the opportunity to bring my expertise in engineering principles and creative problem-solving to help shape the future of architecture within your organization.

- Dedicated Architectural Construction Technician with 1 year of hands-on experience in Technical Office operations. Skilled in structural design support, CAD drafting, and project documentation. Eager to apply my technical expertise to contribute to high-quality engineering projects within a dynamic organization.
