

# Abdulsalam Manahi Al-Qahtani

**Address:** Saudi Arabia – Riyadh  
(Willing to relocate- can join immediately)

**Nationality:** Saudi

**Email:** [abdalsalam7556@gmail.com](mailto:abdalsalam7556@gmail.com)

**Phone number :** +966501251338

**Marital Status:** Married

## SUMMARY

---

Junior Civil Engineer with experience in both infrastructure and superstructure works. Skilled in roads, stormwater networks, utilities, and field inspections, with ability to review project documents and drawings to ensure full compliance with project specifications. Proficient in supervising reinforced concrete elements, foundations, columns, beams and slabs, supported by strong knowledge in quality control, reinforcement checks, and concrete testing. Adept at preparing reports, coordinating with contractors and consultants, and maintaining clear project documentation to support smooth project execution.

## EXPERIENCE

---

### Egis Group | KSA – Riyadh

**Job title :** Junior Civil Engineer

**Client :** Saudi Authority for Industrial Cities and Technology Zones (**MODON**)

**Project name:** Supervisory services for the implementation of National Industrial Strategy Initiative projects.

**Period :** October 2025 – Present.

- Supervise and execute infrastructure works including roads, utilities, stormwater, sewer, and potable water networks
- Supervised road construction activities including subgrade, subbase, base course, and asphalt works.
- Conduct site inspections for pipelines, manholes, backfilling, compaction, and material quality.
- Ensured compliance with AASHTO, ASTM, and local road standards during construction activities.
- Coordination between all departments to ensure customer requirements are met
- Monitored HSE requirements, traffic management plans, and site safety during road construction.
- Prepare detailed daily reports covering progress, quantities, tests performed, and any site observations.
- Supervise the operation and utilization of heavy equipment such as excavators, loaders, bulldozers, compactors, and cranes on site.

### National Housing Company (NHC) | KSA – Jeddah-Makkah

GDP as a civil engineer (Waed 4) | July 2024 – December 2024.

**Project name:** Khayala Suburb and Makkah Gate

**Project value :** 8 Billion SR

**Period :** July 2024 – December 2024.

- Monitored project progress, identified deviations, and suggested corrective actions.
- Supervise all stages of residential concrete construction, including excavation, formwork, reinforcement installation, and concrete pouring.
- Ensure compliance with safety, quality, and project procedures.
- Coordinate with subcontractors, suppliers, and site teams to ensure smooth workflow and timely material delivery.
- Support project managers in planning, coordination, and reporting activities.
- Inspect reinforcement details, shuttering alignment, levels, and dimensions before casting.
- Coordinate with contractors, suppliers, and internal stakeholders to support smooth site operations.
- Support project engineers and site teams in day-to-day engineering activities
- Communicated with stakeholders to provide updates on project status and potential delay.

COOP | June 2022 – August 2022.

- Monitor daily site activities, inspect trenching, bedding, pipe laying, backfilling, and testing works, and ensure compliance with safety and technical requirements
- Supervise the installation and construction of utility networks, ensuring adherence to approved shop drawings, specifications, and quality standards
- Inspect manholes and pipeline structures during fabrication to ensure compliance with project specifications, material standards, and approved shop drawings
- Monitor production of precast manholes and pipes at the manufacturing plant, ensuring quality of concrete, reinforcement, curing, dimensional accuracy, and adherence to QA/QC procedures
- Prepare site reports, document progress, verify quantities, and follow up on inspections.
- Assist in monitoring construction activities to ensure compliance with project specifications,

## EDUCATION

**Umm Al-Qura University | Saudi Arabia**

Bachelor's Degree in Civil Engineering | GPA 3.67 out of 4 With Second Class Honors | 2024.

## Courses and Certifications

- Project Management Professional (**PMP**) | Certificate No. 3957965 | October 2024.
- Risk Management Professional (**RMP**) | Certificate No. 3973120 | November 2024.
- Certified Associate in Project Management (**CAPM**) | Certificate No. 3898359 | July 2024.
- Occupational Safety and Health Administration (**OSHA**) | Certificate No. 227446-191-353-b353b | September 2023.
- Crisis and disaster management.
- Infrastructure network design course.
- infrastructure networks execution course.

### ● Memberships:

- Member | Saudi Council of Engineers (SCE).

### ● Research:

- Compressive Strength of Lightweight Concrete Reinforced with Rockwool Fibers and Perlite.

## Personal Skills

### Hard Skills:

- Auto Cad | Civil 3D
- WaterGEMS | SewerGEMS
- ETAPS
- Microsoft Office Suite.
- Power BI
- Autodesk Revit

### Soft Skills:

- Adaptability and fast learning
- Responsibility and commitment
- Ability to work under pressure
- Problem-Solving.
- Critical Thinking.
- Effective Communication.
- Time Management.
- Collaboration and Teamwork.
- Multitasking & Prioritization

### Language Skills :

**Arabic:** Native (Writing & Speaking)

**English:** C1 Writing | B2 Speaking
