

Sheid Jama Ammad

RIUG7883, Gate-4 Nuzat Ath Thaqif, 4115,
Al Uraija St. Al Wusta, Riyadh 12972.

AutoCad Operator

Contact No.:

+966564778014

Email:

Sheldammad@gmail.com

Profiles

Age : 46 Yrs Old

D.O.B : 06/04/1979

P.O.B : Siasi Sulu Phil.

Religion : Islam

Nationality : Filipino

Language : Tausog, Tagalog
English & Arabic

Height : 5'7

Weight : 80 kg

Years of Experience

18 years

Objectives

to Impart My Knowledge about Designing, Drafting, Extracting, Survey Data from Field Using the following Software's such Are, Autocad(2D & 3D), Civil 3D, 3ds Max, TBC , Cyclone Core, Cyclone Register 360 & Faro Scene. Practices and Standards is to be considered as a high priority for promoting Quality Productivity of works for designing in an esteem organization or Company where My Talents can be Utilized for the Growth of Company as well.

Work Experiences

TWOZAN SURVEYS OFFSHORE ONSHORE SURVEYING ENGINEERING

Rm. 308, 3rd floor Al Jazeera Building Aqrabiyah District Al Khobar 34446
Kingdom of Saudi Arabia (Dec. 07, 2022-Jan. 10, 2026)

Responsibility;

- Processing and registering Raw scan data from the Site.
- Providing proposed drawing for Architectural & Site Plan
- Providing Details, Section and Elevation of Architectural Plan
- Issuing Shop Drawing for finalizing the Architectural plan
- Issuing Construction Drawing for Architectural plan for Site Implementation
- Providing Interior Fit out and Accessories Layout
- Extraction utilities and feature from the Point cloud.
- Providing topographic data base on extraction from the point cloud.
- Process extracted data using Civil 3d to provide contour, feature, utilities and line works.
- Providing ground surfaces base on extracted data.
- Providing topographic drawing
- Providing crossing schedule for all above ground utilities and underground line works
- Providing As built above ground and underground utilities and overhead as well
- Proficient in AutoCAD Civil 3D for creating detailed civil engineering design drawings and plans.
- Providing Details slope and Ground elevation for developing surface models and calculating volumes for earthwork operations.
- drafting topographic maps and conducting as-built surveys with Civil 3D.
- convert traditional 2D design drawings into 3D models for visualization and analysis.
- Expertise in creating and managing Civil 3D design templates and standard detail libraries.
- Customizing templates for the shortcut of processing feature line and code

Work Experiences

ROYAL COMMISSION JIZAN

Jizan City for Primary & Downstream Industries (JCPDI)

Mar. 07, 2024-March 12, 2025

(Supplied by Twozan)

Responsibility;

- Providing survey Sketches for a plot or boundaries as per urban planning request.
- Providing as Built base on survey data
- Providing Topographic survey sketch.
- Issuing site development to the nearest plot allocation boundaries so that it will not clash with the neighbors
- Extracting raw data from the site.

Certificates

- o AutoCAD 2D & 3D
- o 3D max & Photoshop
- o Word
- o Excel
- o PowerPoint
- o Adobe Photoshop
- o Movies Maker
- o MS Publisher
- o Etiquette of cyberspace.
- o Trimble MX50 /Mobile Mapping
- o Trimble Geospatial Solutions
- o Trimble Reality Capture
- o Leica Cyclone
- o Leica Register 360
- o Leica Cloudworx
- o Infracore 360
- o Revit

Company/Position

- o Twozan Survey Company
 - Autocad Operator (Civil 3d)
 - Data Processing
 - Data Extracting
- o Royal Commission Jizan
 - Autocad Operator (Civil 3d)
- o Royal Commission Yanbu
 - Autocad Operator (Civil 3d)
- o RedSea Global (TRSDC)
 - Autocad Operator
- o Multiple Builders Company
 - Autocad Operator (Archi.,ElectroMechanical)
- o Nawaf Abdulla Al-Omaireen Trade & Est
 - Autocad Operator
 - Interior Designer
- o Siasi Municipal Office
 - Autocad Operator (Archi. & Structural)
 - Autocad Operator (Civil 3d)

- Creating topographic survey drawing to ensure the requested plot hadn't clashed with some utilities and other constructed structure on site.
- Providing drawing as per request base on topographic sketch as seen on KML to verify the existing structure on site
- Requesting the surveyor to provide survey data for some issue related to clashing, missing utilities, overlapping boundary, walls, building & etc.
- Verifying the DEEDS to ensure that requested plot or boundaries has followed the coordinates provided by the surveyor
- Processing line work above ground, underground and all utilities marker base on raw survey data from surveyor
- Creating surfaces as per contour interval desired by the clients or requester

Work Experiences

ROYAL COMMISSION YANBU

Al Bahr Yanbu Madina Province Saudi Arabia

July 02, 2022-Nov. 22, 2022

(Supplied by Twozan)

Responsibility;

- Providing survey Sketches for a plot or boundaries as per urban planning request.
- Proving Topographic survey sketch.
- Issuing site development to the nearest plot allocation boundaries so that it will not clash with the neighbors
- Extracting raw data from the site.
- Creating topographic survey drawing to ensure the requested plot hadn't clashed with some utilities and other constructed structure on site.
- Providing drawing as per request base on topographic sketch as seen on KML to verify the existing structure on site
- Requesting the surveyor to provide survey data for some issue related to clashing, missing utilities, overlapping boundary, walls, building & etc.
- Verifying the DEEDS to ensure that requested plot or boundaries has followed the coordinates provided by the surveyor
- Processing line work above ground, underground and all utilities marker base on raw survey data from surveyor
- Creating surfaces as per contour interval desired by the clients or requester

Work Experiences

REDSEA GLOBAL COMPANY (Former TRSDC)

Umluj, Tabuk Province. Saudi Arabia

Dec. 08, 2020 – June 27, 2022

(Supplied by Twozan)

Responsibility;

- Handled all drawing related to Project development under logistic department and w/c all requested plot allocation issued.
- Providing proposed drawing for Architectural & Site Plan
- Providing Details, Section and Elevation of Architectural Plan
- Issuing Shop Drawing for finalizing the Architectural plan
- Issuing Construction Drawing for Architectural plan for Site Implementation
- Providing Interior Fit out and Accessories Layout
- Updating master plan from time to time for the new changes and new development.
- Make plot proposal for the new client to be checked and finalize by senior project manager and to be approve by the head office
- Plotting all coordinates given by surveyors for plot allocation and landscaping
- Working with different contractor as a team for the new propose design changes from their own proposal to construct and to be approved by the head office.
- Sketching and plotting the coordinates for the safety route guide of sea transportation or sailor.
- Providing new proposed of different project facilities
- Providing report of project development or progress
- Computing of quantity of materials on the project

Attainments

College : University Zambo.
Course : BS.CE
(Undergraduate)
Secondary : N.D.S
Elementary : P.J.T.C.E.S

- Providing report of project development or progress
- Computing of quantity of materials on the project
- Visiting to the site to have an assurance that the project implementation followed the quantity mention on the contract and as per drawing approved.
- Provided landscaping design to develop more attraction ang better scene.
- Making surface contour ang profile
- Calculating the volume of cut and fill.

Work Experiences

MULTIPLE BUILDERS COMPANY

Pepsi Rd. 4th floor Al Sala Bldg. Eastern province
Al Khobar, KSA Tel. # (013)8671556/8671557
Fax (013)86772272, www.multiplebuilders.com

Responsibility;

- Providing proposed drawing Site Plan & Architectural Plan
- Providing Civil layout for electrical and mechanical to be approved by the project Engineer and to be present to the project consultant for finalizing
- Providing proposed drawing for Architectural & Site Plan
- Providing Interior Fit out and Accessories Layout
- Providing Details, Section and Elevation of Architectural Plan
- Draft the new approved sketches to be issue for construction for the client final approval
- Final approved Architectural drawings are always handy to be presenting as required by the project management and reflect it any approved changes or modification very clearly.
- The drawings it should be done with the project engineer for final checking followed by presentation to clients to ensure met the desired design.
- Detailing for the section and elevation to modify from edge to edge of each of the following electrical, mechanical and architectural.
- Submitting drawing for finalizing and approval to ensure that design or layout meet the standard specification for electrical, mechanical and Architectural.
- Revising drawing to adjust, changes details, dimension, specification and other modification
- Visiting the site to check the development and progress for the constructed worked if they follow approved design accordingly.
- Providing civil work design for electromechanical work
- Providing coordinates drawing to make sure all layout of such electrical and mechanical doesn't clash each other
- Communicating always with the site in charge engineer if there's a change of a drawing
- Providing shop drawing with accurate dimension fully detailed because measured factor that affect installation, distribution and arrangement of equipment
- Determining the type of materials on their description such electrical and mechanical accessories
- Providing single line diagram power demands as computed by the engineer.
- Supervising and Instructing the worker at the site if needed with the absence of foreman or engineer.
- Providing layout for fire alarm and telephone data and riser diagram.
- Providing details drawing for pump room and description of pumps either diesel or electric for the fire fighting and power supply for the water line as per describe by engineer.
- Providing layout for firefighting as per computed sizes and distances of sprinkles and other firefighting accessories.
- Providing layout for fire alarm and riser diagram
- Providing layout for plumbing pipe such as water supply and sewer pipe with sizes as per designed by engineer connected to different accessories.
- Providing as built drawing of the project as per request of clients
- Plotting and printing of different sizes of drawing upon the request of engineer

Work Experiences

NAWAF ABDULLAH AL OMAIREEN TRADE ESTABLISHMENT

Mahadhud St. Alshabiyah Dist. Al Hofuf KSA
PO. Box 4979 Tel. # 035818195, Fax # 035818194
Aug. 08, 2013-Sep.07, 2015 (2yrs)

Responsibility;

- Providing proposed drawing Site Plan & Architectural Plan
- Providing Civil layout for electrical and mechanical to be approved by the project Engineer and to be present to the project consultant for finalizing
- Providing proposed drawing for Architectural & Site Plan
- Draft the new approved sketches of issued for construction for the client's final approval
- Providing Architectural plan for interior design for accessories fitout.
- Always dealing with clients to ensure the desired design has been met.
- Providing shop drawing for approval to ensure that the design meets the building codes and standard
- Modeling interior design for home accessories such as Kitchen, toilet and Living room.
- Creating plan for tiles layout and calculating quantity of materials
- Editing materials such as sizes and color correction using photoshop for rendering best quality result using 3DS MAX software
- Creating art design in photoshop for 3DS MAX rendering materials
- Providing interior plan layout for accessories fit out
- Revising drawing for time to time as per client's desire

Work Experiences

SIASI MUNICIPAL OFFICE

Siasi Sulu Philippines
Jul. 2008-June 2013

Responsibility;

- Preparing a proposal drawing, site query sketches for civil, structural and architectural plan
- Drafts the new approved sketches issued for construction drawing
- Properly records and manage the additional changes of new propose plan commented by the clients or consultants
- Final approved drawings are always handy presented as required by the project management, consultant and clients as well.
- Preparing for the new changes drawing and always stayed updated
- Detailing the section and elevation for the site easy implementation
- Always focusing on receiving new changes to stay updated drawing for time to time and for the purpose of changes order on the contract.
- Responsible for safe keeping and managing of approved drawing for easily accessible at all time
- Responsible for creating manual sketches for new expansion and other changes of drawing
- Detailing for structural reinforcement bar spacing and sizes for for site implementation
- Processing the grid for road leveling and alignment
