PROFILE

PMP-certified Civil Engineer with over 7 years of experience in construction, infrastructure, and project execution across Saudi Arabia and Sudan. Proven track record in supervising site operations, managing finishing works (Retail), and coordinating with consultants to deliver projects within strict quality, safety, and timeline requirements. Expert in technical office functions, including quantity surveying and shop drawing reviews.

EDUCATION

Bachelor Degree (Civil Engineer), Sudan University of Science and Technology 09/2013 – 12/2018
Khartoum, Sudan

PROFESSIONAL EXPERIENCE

Civil Engineer, Al-Owaidah Co. 06/2022 – Present
Riyadh, Saudi Arabia

- Lead the execution of infrastructure and road safety projects, ensuring all civil works align with technical specifications.
- Supervise site activities and coordinate with subcontractors to maintain project milestones and deadlines.
- Conduct formal site inspections (RFI) with consultants and ensure full compliance with MOT standards.
- Resolve technical conflicts and site discrepancies to prevent delays and minimize rework.
- Prepare comprehensive progress reports (Daily/Weekly) and monitor KPIs to ensure project health.

Site Engineer (Retail Projects), Sam Tech Contracting Company 03/2022 – 05/2022
Al-Majardah, Saudi Arabia

- Managed fast-track civil and finishing works for high-end retail outlets.
- Coordinated multidisciplinary teams (Civil, MEP, and Carpentry) to ensure seamless project integration.
- Ensured all materials used on-site met the approved submittals and quality standards.
- Delivered project phases under tight schedules while maintaining a high standard of architectural finishing.

Technical Office Engineer, Rawabet Al-Hamroor Ltd 09/2021 – 03/2022
Riyadh, Saudi Arabia

- Reviewed architectural and structural shop drawings to identify and resolve design-to-site discrepancies.
- Performed detailed Quantity Surveying (QS) for subcontractor payment certificates and material procurement.
- Assisted in cost control, budgeting, and project scheduling using Primavera P6.
- Supported the planning team in monitoring actual progress against the baseline schedule.

Site Engineer, Columns of Construction and Contracting12/2018 – 08/2021
Khartoum, Sudan

- Supervised earthworks, including excavation, backfilling, and compaction testing.
- Oversee reinforced concrete works (Foundations, Columns, and Slabs) for residential and commercial buildings.
- Enforced Health, Safety, and Environment (HSE) protocols on-site, achieving zero-incident project phases.
- Coordinated with survey teams to ensure precise alignment and leveling according to approved plans.
