

Musadiq Hussain

Logistics & Fleet Supervisor (Operations & Coordination)

+966 53 465 0420 hussainmusadiq793@gmail.com Riyadh, Saudi Arabia

PROFESSIONAL SUMMARY

Logistics and Fleet Supervisor with 4+ years of experience in logistics coordination, fleet management, and supply chain optimization supporting large-scale landscaping, infrastructure, and earthworks projects across Saudi Arabia, including Qiddiyah and Red Sea Global. ISO 55001 and CSCP certified, with a proven track record of reducing equipment downtime by 35% and fuel consumption by 20% through preventive maintenance planning, route optimization, and data-driven fleet strategies. Experienced in managing end-to-end workshop operations, supervising fleets of more than 600 vehicles and heavy earthmoving equipment, and leading a team of 5 Logistics Supervisors to support site logistics, material movement, and project execution. Skilled in vendor performance management, procurement lifecycle, and spare parts optimization for heavy equipment used in hardscape, softscape, and infrastructure works.

Proficient in Aconex, Microsoft Dynamics 365, and Bayan Logistics for logistics tracking, compliance, and operational reporting. Recognized for driving operational efficiency, ensuring HSE compliance, and maintaining seamless project continuity in high-volume site environments.

PROFESSIONAL EXPERIENCE

SALCO (Saudi Salco Contracting Company)

09/2024 – Present

Logistics & Fleet Supervisor

Riyadh

- Managed daily workshop operations, including preventive maintenance scheduling and maintenance data tracking for a fleet of vehicles and heavy equipment, supporting a multidisciplinary workshop and logistics team.
- Led continuous improvement initiatives to optimize workshop inventory and spare parts processes, enhancing operational efficiency and reducing equipment downtime.
- Oversaw the movement and allocation of vehicles, equipment, and operators across project sites within Saudi Arabia, improving cost control and operational efficiency.
- Achieved a **35% reduction in equipment downtime** through effective preventive maintenance planning, increasing fleet availability.
- Reduced unplanned downtime by **25%**, improving overall production uptime and project continuity.
- Lowered fuel costs by **20%** through route optimization, preventive maintenance, and fuel management controls.
- Utilized Aconex, Microsoft Dynamics 365, and Bayan Logistics to streamline logistics tracking, inventory control, and compliance management, reducing operational costs and downtime.

PETROMIN (ELECTROMIN)*Regional Supervisor*

11/2023 – 09/2024

Jeddah, Saudi Arabia

- Conducted site visits across multiple locations to oversee daily work progress and ensure compliance with quality and safety standards for EV charger installation projects.
- Managed relationships with up to 10 subcontractors, ensuring vendor management, timely delivery, and quality assurance.
- Handled procurement processes including quotation acquisition and purchasing, supporting efficient resource allocation and cost control.
- Supervised testing and commissioning of EV chargers up to 150kW capacity, ensuring operational functionality and client satisfaction.
- Delivered client training and support on EV charger operation and maintenance, enhancing customer experience and technical knowledge.
- Resolved technical and logistical challenges in EV charger installations, contributing to project success and risk mitigation.

MOBILY (Telecommunication)*Project Coordinator*

02/2023 – 11/2023

Jeddah, Saudi Arabia

- Coordinated project execution including detailed scheduling, resource allocation, and progress tracking, ensuring alignment with project milestones and quality
- Prepared and maintained comprehensive project documentation, including status reports, presentations, and procurement records.
- Assisted in budgeting, procurement, and logistics coordination, contributing to cost efficiency and operational effectiveness.

Accionna & RTCC (Joint Venture)*Project Team Leader*

07/2022 – 12/2022

Jizan, Saudi Arabia

- Led cross-functional teams to achieve project goals within scope, timeline, and budget, employing project lifecycle management best practices.
- Developed and implemented detailed project plans, tracking progress and adjusting strategies to mitigate risks and ensure quality assurance.
- Served as primary stakeholder liaison, providing regular updates and managing expectations to maintain client satisfaction.
- Motivated and mentored team members, fostering a collaborative environment and enhancing team performance.
- Identified and mitigated project risks, ensuring proactive communication and resolution to avoid disruptions.
