

MOHAMMED SADIQ AHMED, PMP

Senior Project Manager | Infrastructure & Construction
Qassim, Saudi Arabia

Ph: 0590806008 | Email: ALSSAPAI@gmail.com | LinkedIn: www.linkedin.com/in/alssapai

PROFESSIONAL SUMMARY

Senior Project Manager (PMP) with over 6 years of experience managing multiple construction and infrastructure projects across Saudi Arabia. Proven expertise in project planning, schedule and cost control, risk management, and stakeholder coordination, ensuring projects are delivered on time, within approved budgets, and in compliance with quality and safety standards.

PROFESSIONAL EXPERIENCE

Senior Project Manager

International Model Contracting Company – Qassim

July 2024 – Feb 2026

- Led multiple construction projects from initiation through execution and handover.
- Developed project plans, schedules, and execution strategies, ensuring alignment with scope and objectives.
- Monitored progress, cost performance, and resource utilization to achieve on-time delivery.
- Managed contractors, consultants, and site teams, resolving technical and operational issues.
- Ensured compliance with contractual requirements, quality standards, and safety regulations.
- Coordinated inspections and final handover with relevant authorities and clients.

Project Manager

Advanced Machinery Trading & Contracting Co. – Riyadh

Oct 2023 – Jun 2024

- Managed day-to-day site execution activities for construction projects.
- Planned and distributed tasks to improve workflow efficiency and productivity.
- Tracked project progress, identified risks or delays, and implemented corrective actions.
- Coordinated subcontractors, suppliers, and consultants to maintain project schedules.

Planning Engineer

SAS RATL Contracting – Madinah

Jan 2023 – Jul 2023

- Prepared and maintained detailed project schedules using Primavera P6.
- Monitored progress against baseline schedules and analyzed schedule performance.
- Prepared progress reports and planning narratives for management review.

Engineering Office Manager

First Dimension Engineering Consultancy – Khamis Mushait

Jul 2022 – Dec 2022

- Managed engineering office operations and supervised technical teams.
 - Ensured compliance of design submissions with local regulations and standards.
 - Coordinated approvals and submissions through the Balady platform.
-
