

Mohammed Ibraheem

HSE Manager

Results-driven HSE Manager with over 6 years of experience in occupational health, safety and environment across construction and industrial segments. Seeking to lead and strengthen health, safety, and environmental systems by driving regulatory compliance, risk reduction, and a proactive safety culture. Committed to safeguarding people, assets, and the environment through effective leadership, continuous improvement, and practical, site-focused safety solutions

EXECUTIVE SYNOPSIS

- **HSE Management Systems & ISO Compliance:** Lead the implementation and continuous improvement of HSE management systems aligned with ISO 45001, ISO 14001, and regulatory requirements
- **Risk Assessment & Hazard Control:** Identify workplace hazards through risk assessments, JSA, and HIRA, and implements effective control measures to minimize incidents and operational risks
- **Permit-to-Work & Safe Systems of Work:** Manage PTW systems, method statements, SOPs, and isolation procedures to ensure safe execution of high-risk activities
- **Incident Investigation & Emergency Preparedness:** Conduct incident and near-miss investigations, drives root cause analysis, and develops emergency response plans and safety drills
- **Contractor & Workforce Safety Management:** Oversee contractor HSE performance, site compliance, audits, and corrective actions while promoting accountability across teams
- **Safety Culture, Training & Reporting:** Deliver HSE training, toolbox talks, and safety awareness programs, tracks KPIs, and prepares management reports to support continuous improvement

WORK EXPERIENCE

AL JAZIRAH FALCON INDUSTRIES TRADING & CONTRACTING HSE Manager | Sep 2025 – Present

Key Responsibilities:
