Summary

Architect with experience in architectural design, 3D modeling, preparing shop drawings, and coordinating site work. Skilled in developing design concepts, space planning, preparing technical drawings, and supervising on-site execution to ensure work quality and compliance with engineering standards. Proficient in using essential design programs such as AutoCAD, Revit, 3ds Max, and Photoshop for preparing drawings, models, 3D visualizations, and project documentation. I have skills in engineering supervision, solving technical problems, coordinating with contractors, and managing execution processes. I aim to leverage my technical and creative expertise in a professional work environment as an Architectural Designer or Site Engineer, with a commitment to delivering high-quality design solutions that meet client requirements and support project success.

Education

Bachelor of Architecture | July 2024

- **Faculty of Engineering, Delta University for Science and Technology**
 - **Graduation Project:** Tourist Resort.
-

Work Experience

Architect (Technical Office & Site Engineer) | Scope Al Arabiya Contracting

- **Othaim Hotel Project – Al Rabwah | December 2025 – Present**
- **Field supervision :** overseeing the execution of high-end architectural finishing works for hotel rooms to ensure full compliance with technical specifications.
- **Technical Office :** Reviewing and approving shop drawings and ensuring design accuracy.
- **Quality Management :** Inspecting works delivered by subcontractors and ensuring adherence to project quality standards and timelines.
- **Quantity Surveying (QS) :** Preparing bills of quantity (BOQ) for finishing materials and monitoring site procurement and deliveries.

Architect – Evento Designs | September 2024 – January 2025

Responsibilities

- Preparing interior and architectural designs including space planning, material selection, and producing visualizations and 3D models.
- Preparing shop drawings and plans using AutoCAD and Revit.
- Coordinating with engineers and contractors to solve technical issues and facilitate workflow.
- Following up on-site execution and ensuring compliance with final design and engineering standards.
- Enhancing client experience by delivering effective design solutions tailored to project needs.

Career Skills

- **Interior and architectural design** – developing effective design concepts and preparing high-accuracy working drawings.
- **3D modeling** – producing realistic 3D models to support project visualization.
- **Preparing shop drawings** – producing precise technical drawings in accordance with engineering standards.
- **Space planning** – analyzing project requirements and efficiently distributing spaces.
- **On-site engineering coordination** – monitoring execution and resolving technical issues to ensure work quality.
- **Project documentation** – preparing work documents and technical reports in an organized manner aligned with project requirements.
- **Solving technical problems** – addressing design and site challenges quickly and efficiently to ensure workflow continuity.

Personal Skills

- Effective teamwork.
- Flexible time management.
- Organized analytical thinking.
- Clear professional communication.
- Commitment to work quality.
- Ability to learn quickly.
- Making appropriate decisions.
- Accurate attention to detail.

Software

- 3ds Max.
- Autodesk AutoCAD 2D.
- Autodesk Revit Architecture.
- Photoshop.

Languages

- **Arabic:** Native speaker.
- **English:** Good.
