El Shefaa City- Riyadh-KSA

Personal Profile

During my working life I had several different experiences that shaped my character to have a good team spirit and communication skills and leadership. I lived as an expatriate for several years and these experiences have increased my ability to adapt to multicultural environments. I am seeking a position as a site supervisor in the construction, landscape & Infrastructure market which I have experience over then 13 years, within management of 50 workers approximately

Core working skills:

- Managing construction sites, landscaping, and infrastructure works
 - Water supply and sewage networks
 - Electrical networks and lighting systems
 - Roads, pathways, earthworks, excavation, and backfilling
 - Irrigation and planting networks (landscape)
 - Utility lines (Ducts – Pipelines – Manholes)
 - Leading work teams and organizing manpower and schedules
 - Full experience in warehouse management and material control
 - Reading engineering drawings and plans
 - Ensuring compliance with technical specifications, quality, and safety standards
 - Good understanding of electrical and hydraulic systems
 - Developing effective methods for on-site inventory control
-
