Address: Riyadh

SUMMARY

I am a passionate surveying engineer with more than three years of experience in infrastructure, marine works, steel structures, and oil & gas projects. I am looking for a job opportunity where I can use my surveying knowledge in setting out, leveling, quantity calculation, and site coordination to improve project accuracy and performance.

Education:

Bachelor's degree in Mapping, Surveying, and GIS (2020 – 2024)
Zagazig University, Egypt

Experience

Surveyor

Canal Harbor & Great Projects Co., Egypt (2025 – 2026)

- Executed accurate setting-out for structural and marine elements in accordance with approved drawings and specifications.
- Performed leveling and alignment works for steel structures, ensuring tolerance compliance.
- Operated Total Station, GPS, and leveling instruments to maintain site control networks.
- Coordinated closely with civil teams to resolve site discrepancies and improve execution accuracy.
- Prepared daily survey reports, measurements, and as-built data for project records.

Surveyor

Petrojet (The Petroleum Projects & Technical Consultations Co.)(2023-2025)

- Conducted layout works for tanks, foundations, and infrastructure networks.
- Established control points and benchmarks to support construction activities.
- Calculated earthwork quantities and monitored levels during execution.
- Verified alignment and verticality for critical elements.
- Assisted in preparing as-built drawings and comprehensive survey documentation.

Technical Skills:

- Total Station
- GPS Surveying
- Level Survey
- AutoCAD
- Civil 3D
- Microsoft office (word - excel - PowerPoint)

Soft Skills:

- Time Management
- Communication Skills
- Innovative
- Teamwork
- Fast Learner
- Quick to engage
- strong decision maker
- complex problem solver.

Languages:

- Arabic
- English
