

Anas Radi Abed Al - Hadi Al - Ababseh

Civil Engineer | Highways, Roads & Bridges Construction & O&M | Infrastructure | (PMP®),(PMI-RMP®), (PMI-PMOCP™)

Tabuk -Saudi Arabia | eng.anasababseh@gmail.com | +966531823318 | +962790922671 | transferable Iqama

Summary

Civil Engineer with over 16 years of extensive experience in road, highway, and bridge construction, as well as operation, maintenance, and project management across major projects in Saudi Arabia. Proven track record of leading large-scale infrastructure projects, effectively managing multidisciplinary teams, and ensuring successful project delivery within schedule, budget, and quality and safety standards. Highly skilled in construction management, technical supervision, stakeholder coordination, and contract administration. Certified Project Management Professional (PMP), Risk Management Professional (RMP), and PMO Certified Practitioner (PMOCP).

Education

Sep 2005 - Jan 2010 :

Bachelor of Civil Engineering (Highways & Bridges)

AL-Balqa Applied University , Faculty of Engineering Technology , Amman – Jordan

Experience

OCT 2024 – OCT 2025

Executive Follow-up Engineer (PMO) | Al-Enjaz Trading and Contracting Company | KSA

- Monitored progress of industrial city and Ministry of Transport road projects .
- Prepared weekly and monthly status reports, highlighting risks and delays .
- Coordinated with contractors and internal teams to ensure quality and budget compliance.
- Supported PMO in risk assessment, mitigation, and project control activities.
- Ensured compliance with safety regulations, construction standards, and documentation requirements.

OCT 2022 – OCT 2024

Construction Manager | Technical Development Contracting Company (Zahran Holding) | KSA

Projects : With the zakat ,tax , and customs authority (ZATCA) :

AL-Battha Land Port Essential Face Lifting Works project (Saudi Border with UAE) .

- Managed and executed projects works under ZATCA standards, including asphalt construction, milling and paving, road widening, earthworks, concrete works, landscaping, and security fence installation.
- Coordinated multidisciplinary teams and subcontractors, optimizing resource allocation and workflow efficiency.
- Implemented quality control and inspection procedures for materials, road layers, asphalt, markings, and safety installations.
- Ensured compliance with safety, quality, and project timelines while maintaining alignment with project objectives and budgets.
- Reported project progress, risks, and updates to stakeholders, maintaining comprehensive project documentation.

APR 2018 – OCT 2022

Project Manager | Al-Omaier Trading & Contracting Company | KSA

Projects : with the saudi ministry of transport (M.O.T) :

- **Operation , maintenance and cleaning contracts for roads in Qassim Area (contract : 504) and Hail Area (contrac : 601)**
- **Preventive Maintenance projects In the Al qassim region & Hail region .**
- Managed road operation and maintenance projects for Saudi Ministry of Transport contracts , including maintenance of asphalt surfaces, unpaved shoulders, safety elements, and concrete structures for bridges and culverts.
- Executed a large number of preventive maintenance projects, including asphalt works (road reconstruction, milling and asphaltting , overlays, hot sand mix, and road widening), concrete works (bridges, box culverts, retaining walls, slope protection, and riprap), safety elements (paint markings, cat eyes, sign boards, New Jersey barriers, and guard rail barriers), bridge maintenance (concrete and steel structures, expansion joints, and waterproofing insulation), and landscape works (interlock and curbstones).
- Prepared monthly invoices, weekly and monthly progress reports, and variation orders for maintenance and preventive maintenance projects
- Coordinated permits, manpower, equipment, and materials.

OCT 2012 – APR 2018

Project Manager | Manwa Trading & Contracting Company | KSA

Projects : with the saudi ministry of transport (M.O.T) :

Operation , maintenance and cleaning contracts for roads in the Tabuk Area (contract : 1202) (Project Manager) and Najran Area (contract : 1102) .

Preventive Maintenance projects In Tabuk region & Najran region .

- Managed road operation and maintenance projects for Saudi Ministry of Transport contracts , including maintenance of asphalt surfaces, unpaved shoulders, safety elements, and concrete structures for bridges and culverts.
- Executed a large number of preventive maintenance projects, including asphalt works (road reconstruction, milling and asphaltting , overlays, hot sand mix, and road widening), concrete works (bridges, box culverts, retaining walls, slope protection, and riprap), safety elements (paint markings, cat eyes, sign boards, New Jersey barriers, and guard rail barriers), bridge maintenance (concrete and steel structures, expansion joints, and waterproofing insulation), and landscape works (interlock and curbstones).
- Prepared monthly invoices, weekly and monthly progress reports, and variation orders for maintenance and preventive maintenance projects
- Coordinated permits, manpower, equipment, and materials.

MAR 2010 – OCT 2012

Site Engineer | Al - Mobty Company For Contracting | KSA

Projects : with the saudi ministry of transport (M.O.T) :

- **Dualization of Albaha - Mikhwa - Almudailif road in Albaha Area .**
- **Completion Some Roads in Najran Area (Group 7) .**
- Supervised and managed on-site construction activities for road and bridge projects .
- Monitored and controlled earthworks operations including cutting , filling , subgrade and aggregate base course (ABC) works .
- Supervised asphalt works including asphalt laying , compaction, and finishing in accordance with project specifications.
- Oversaw structural concrete works including box culverts, pipe culverts, concrete slope protection and bridge construction.
- Ensured proper installation of road safety elements including road markings (paints), cat eyes and traffic sign boards .
- Coordinating with survey teams, subcontractors, and consultants.

- Collaborated with subcontractors, consultants, and project teams to ensure smooth and timely project execution.
- Prepared daily site reports and monitored work progress to ensure alignment with project timelines and milestones.

Certifications & Courses

- **PMP® – Project Management Professional**
Project Management Institute (PMI)
Certification No.: 3155751 | Valid Until: Oct 29, 2027
- **PMI-RMP® – Risk Management Professional**
Project Management Institute (PMI)
Certification No.: 3358319 | Valid Until: Oct 7, 2028
- **PMI-PMOCP® – PMO Certified Professional**
Project Management Institute (PMI)
Certification No.: 4248953 | Valid Until: Dec 10, 2028
- **Professional Engineer – Saudi Council of Engineers (SCE)**
Membership No.: 149179 | Valid Until: July 31, 2025
Specialization: Civil Engineering | Classification: Professional
- **Bridges Maintenance & Inspection** – International Road Federation (IRF)
- **Infrastructure Training** – Integrated Learning Center
- **Primavera Training** – Jordan Engineers Association
- **AutoCAD, Civil 3D, Staad Pro, Prokon** – Technical Proficiency

Skills

Technical Skills:

Managing highways, bridges, interchanges, and infrastructure projects.
Supervising earthworks, asphalt works, concrete, culverts, and structures .
Preparing shop drawings, BBS, BOQ, and quantity surveying.
Monitoring schedules, budgets, and construction progress.
Applying quality control, safety standards, and contract requirements

Software Skills :

Using AutoCAD & Civil 3D for drawings and layouts.
Utilizing Microsoft Office (Word, Excel, PowerPoint) for reports and analysis.

Personal Skills :

Leading and motivating large project teams.
Communicating effectively with clients, consultants, and stakeholders.
Solving problems and making decisions under pressure.
Managing time, priorities, and multiple tasks efficiently.
