---

Bachelor of Architectural Engineering

Arab International University

Damascus, Syria

### Languages

---

Arabic — Native

English — Fluent

### About Me

---

Junior Architectural Engineer with strong AutoCAD 2D skills and hands-on experience supporting a full-scale hotel renovation project in Riyadh. Experienced in modifying architectural plans, assisting in technical drawing updates, and contributing to practical site-related solutions such as drainage layout planning. Currently seeking to grow within a construction environment and develop further on-site and technical experience.

### Experience

---

#### • Trainee Architectural Engineer

Bassam Shaker Co. — Riyadh, Saudi Arabia

2013 (6 months)

- Assisted in modifying architectural drawings using AutoCAD 2D for a full building renovation project
- Worked on both “as-built” and revised drawing sets
- Contributed to the renovation of Mövenpick Hotel, Riyadh
- Designed drainage layout for two underground parking levels, including placement of drains and slope direction planning
- Followed technical instructions from senior architect and ensured drawing accuracy

#### • Junior Engineer

Taameer Middle East — Riyadh, Saudi Arabia

2019 (2 months)

- Assisted in updating architectural drawings and plans using AutoCAD
- Supported project work under supervision of lead architect
- Participated in basic coordination tasks related to project drawings
- Gained exposure to construction-related workflows and technical requirements
