## Objective

I am an enthusiastic **Civil Site Engineer** with over 5 years of experience in the industry. My expertise spans the **entire project lifecycle**, from initial excavation and structural work to high-end interior finishing. I have a **proven track record** of managing teams and ensuring projects meet strict specifications and deadlines.

## Education

Morning star polytechnic college/Anna university  
Diploma in civil

2015

Vins Christian college of engineering/ Anna university  
Bachelor of civil engineering

2020

## Experience

Joythi group  
Civil site engineer

June 2021 - December 2023

I have worked on residential buildings such as **G+2 houses, high-rise buildings, and commercial buildings like warehouses and shops**. I manage **structural and finishing works, including structural elements such as footings, columns, and slabs, as well as finishing works like painting, tiling, plastering, and MEP works**. I also handle **labor management, quality checking, BOQ preparation, and DPR documentation**.

Architeca design build firm  
Civil site engineer

January 2024 - July 2025

I have worked on **residential G+1 villa projects, managing structural, finishing, and interior works**. Structural works include **footings, retaining walls, block work, columns, and RCC slabs**. Finishing works include **painting, waterproofing, tiling, plastering, and MEP services**.

I also oversee interior works such as **modular kitchens, wardrobes, dressing units, architraves, partitions, false ceilings, TV units, and bed units**. In addition, I manage **BOQ preparation, procurement, quality checks, material consumption tracking, contractor coordination, DPR preparation, and site supervision**.

Joy university  
Civil site engineer

July 2025 - November 2025

I have worked on **commercial buildings such as colleges and schools**. I handled **renovation and finishing works, including painting, tile laying, fabrication work, glass partitions, curtain walls, and false ceiling installation**. I also managed renovation projects such as **converting classrooms into laboratories, as well as landscape work**.

## Skills

Site Supervision

Coordination with consultant & subcontractor hard

BOQ preparation

Problem solving

AutoCAD

Billing

DPR preparation

Procurement and material management

Quality work and inspection

Labor management

Safety management

Ability to work under pressure

Team player

Hardworking and disciplined
