

Mohamed Rashad Farid

GEOTECHNICAL MANAGER

SUMMARY OF GEOTECHNICAL EXPERTISE

With 25 years of experience in the geotechnical field, I have developed a comprehensive understanding of soil mechanics, foundation design, and site investigation. As General Manager, I have successfully led and managed numerous geotechnical projects, overseeing teams and operations to deliver high-quality solutions across various sectors. I have also worked on projects in the UAE, Saudi Arabia, Oman, Kuwait, and Libya, gaining valuable insights into the unique geotechnical challenges of these regions. In addition to project management, I have significant experience in managing geotechnical rigs, including Bauer, Soilmec, Casagrande, and Sany. Throughout my career, I have collaborated with engineers, contractors, and regulatory bodies to ensure compliance with local standards and project specifications. My leadership and technical expertise have enabled me to provide innovative, cost-effective solutions while maintaining a strong focus on quality and project success.

I have a technical experience in all kind of geotechnical works summarized as follows: -

- Diaphragm wall, Secant piles, Contiguous piles, anchored retaining walls and cut off wall.
- Bored piles with large Dim, Mortar piles, micro piles, CFA piles, Barrettes and Skin and Base Grouting for piles and Barrettes.
- Ground Improvement.
- Ground anchors below and above water levels both types temporary and permanent and struts.
- Testing, static test using different methods such as load cell, reaction piles, reaction anchors and kentledge system, Sonic, Dynamic and integrity.
- Chemical and cement grout plugs.
- Dewatering system using deep wells and piezometers.
- Water proofing system for raft foundation.
- Soil investigation.
- Soil Freezing.

SUMMARY OF WORK EXPERIENCE

➤ Bauer Egypt ,Position Project Manager Egypt – Libya from 1998 to 2006

- **From 1997 to 2006** , I have progressed from a site Engineer to Project manager, gaining invaluable hands –on experince and leadership skills at every stage.
- **In 2005**, I was appointed as a Construction Manager for a project awarded in Libya Tripoli. I managed the construction activities, ensuring the project was executed according to specifications. Additionally, I assisted in establishing the branch in Libya, contributing to its setup and operational foundation.
- **Major Projects**, Fessal Metro Station, Nile City, Four Seasons, San Stefano Complex, Damietta LNG, Coastal Road Kafr Elsheikh Baltim and Burj AL Behar in Tripoli Libya.

➤ NSCC International Ltd, Position Projects Manager - Operations Mangner UAE – Egypt from 2006 to 2012

- **From 2006 to 2010**, I worked as a Projects Manager in Dubai and Abu Dhabi, overseeing the planning and execution of geotechnical projects. I ensured projects were delivered on time, within budget, and in compliance with local regulations, while coordinating with teams, clients, and contractors.
- **From 2010 to 2012**, I successfully established a branch in Egypt, managing the process from start to finish. This included securing office space, setting up operational infrastructure, recruiting and training a local team, and establishing relationships with key suppliers and contractors. I also handled the import and export of equipment coordinating shipments and ensuring smooth logistics between united Arab of emirates and Egypt. My responsibilities extended to navigating legal and regulatory requirements, developing business strategies, and ensuring the branch's integration into the local market. Through my leadership, the branch grew into a fully operational entity, delivering high-quality geotechnical services and contributing to the company's overall success in the region.
- **Major Projects**, Residential tower trade center frist and car park Dubai, Jumeirah island heights fronds A&B, Dubai land residential buliding, PlamJumeirah cresent trunk spine bridge, Plam Jebel Ali trunk spine bridge, Adnec Abu Dhabi national exhibition center, Exhibition halls,Jumeirah island heights village center,Capital center tower in Abu Dhabi ,CLEVELAND hospital in Abu Dhabi, Damitta 500mw simple cycle gas turbine units and Egypt.Marrasi Emaar Misr resort community.

➤ Dar al Handasah, Position Senior Geotechnical Engineer Egypt- UAE – OMAN – Saudi Arabia from 2012 to 2014

- I worked on overseeing site activities, ensuring compliance with technical specifications, managing quality control, and coordinating with contractors and project teams to meet project milestones and deliverables. I gained experience working on projects in the UAE, Saudi Arabia, and Oman.
- **Major Projects**, Link Between Shoaybain and third floor of Jamaprat Saudi Arabia, Al Baleed Water Front Development Oman – Salalah, Jumeirah Park UAE – Dubai, Khurais interchange Saudi Arabia – Riyadh, Azure Residence UAE - Dubai and Club Vista Mare UAE – Dubai.

➤ **Huta Foundation Company, Position Senior Projects Manager
Saudi Arabia - Kuwait from 2015 to 2020**

✚ **From 2015 to 2017**, I was appointed as Sr. Projects Manager for the largest deep foundation project in the Middle East, Madinah Haram Expansion with a value of 23,000,000,000 Saudi Riyal, the project is the largest ever expansion of the Prophet's Mosque with the new expansion, the mosque will have the capacity to accommodate more than two million worshippers, a complex undertaking that operated like a full company within the project. My responsibilities included overseeing all aspects of execution, from planning and coordination to procurement, resource management, and quality control. I led a team of 1,200 people and 35 piling rigs operating at site, managed multiple subcontractors, and handled the procurement of materials and equipment. I ensured the project was completed on time, within budget, and in full compliance with technical and safety standards. The project contains of main piles, shoring, testing and dewatering activities.

✚ **In 2017**, The company was awarded “Kuwait international airport terminal ii” project, and I was appointed as the Project Director to oversee its execution. My role encompassed the full scope of project management, including the technical setup, procurement, and logistics. I managed the entire procurement process, handling the import and export of equipment and materials, ensuring that everything was delivered on time and in compliance with local regulations. I coordinated with local contractors, suppliers, and regulatory authorities, my leadership played a key role in maintaining strong communication and collaboration across all project stakeholders, ensuring the project's success from start to finish.

✚ **From 2018 to 2020**, I worked as a Business Development manager for the Eastern Area, where I was responsible for identifying new opportunities, building client relationships, and expanding the company's presence in the area. My role involved market research, preparing proposals, and negotiating contracts, with a focus on securing new projects and strengthening partnerships with key stakeholders.

➤ **TERRATEST GROUP, Position Bussiness Development & Tendering Manager
Egypt from Jan 2020 till Sep 2021**

✚ I was appointed as Business Development and Tendering Manager for Terratest group since they are opening a new branch in Egypt. My role involved driving business development initiatives, identifying new opportunities, and expanding the company's presence in the local market. I was responsible for managing the tendering process, preparing and submitting bids, and negotiating contracts. During my tenure, we successfully secured three key projects, further establishing the company's presence in Egypt. Additionally, I played a key role in setting up the branch, establishing local partnerships, and ensuring the company's smooth integration into the Egyptian market.

➤ **Misr Raymond Foundations Osman Group, Position General Manager
Egypt from Sep 2021 till Now**

✚ I am responsible for overseeing all aspects of operations, including business development, project management, and day-to-day management of the company. My duties involved strategic planning, resource allocation, and ensuring the efficient execution of piling projects. I managed key client relationships, negotiated contracts, and ensured that all projects were completed on time, within budget, and in compliance with local regulations. Additionally, I was actively involved in the procurement of rig machines, overseeing the selection and purchase of equipment to ensure the company had the right tools for successful project execution. I also handled financial oversight, procurement, and the management of a diverse team, ensuring strong communication and collaboration across all departments. My leadership was essential in driving the company's growth and maintaining its competitive position in the Egyptian market.
