Respected human resource management

Gentlemen I am pleased to apply to your company for an opportunity to work in the field of production lines for road projects in your esteemed company. I would like to share with you some of my practical journey in this field. After I got my diploma, I was one of the lucky ones I got a job at Abdul Ali Al-Ajmi Company. In 2003, the company had only two asphalt plant with a daily production capacity of 1300 tons. During the 10 years of my work there, the company developed. It now owns 40 asphalt production lines. I will explain Some of what I learned is the importance of keeping time to achieve the highest productivity and the best quality Daily mechanical maintenance of all parts of the mixer, screen . elevator.drum . blt feedrs . flter bags air compressor solenoid valves air slenders . daily inspection report s .Understand and follow electrical code, manuals, schematic diagrams, blueprints, and other specifications, using hand tools, power tools, and electrical and electronic test equipment Tests electricalPLC troubleshooting experience and work with tension controllers .for all mechanical and electrical maintenance of plants . Install, repair, replace, and program industrial electrical, frequency drives, control circuits.Measure, cut, and install wiring and conduit systems...

I do not want to lengthen the explanation to save your precious time, but make sure that I am trying to explain to you that my long experience will be beneficial to the company. Since the Corona pandemic, I have been trying to hold on to my work, but unfortunately I lost my job After I left Saudi Arabia for vacation, and upon my return, the borders were closed due to the Covid-19 pandemic got stuck in my country Yemen Since 2020, Because of the conditions of war and siege, there are no job opportunities. I am still searching and will continue to search I have been like a skilled tuna fisherman trying to fish in the middle of the sea while his boat is at risk of being destroyed because of the storm. I will not lose hope to return to my working lifeand ,

I will stay Wait until the fishing rod is shaken."

Best wishes and many thanks to you
