---

## Professional Objective

Results-driven Civil Engineer with hands-on experience in site supervision, structural works, and finishing activities within construction projects in Saudi Arabia.

Skilled in managing site operations, coordinating with multidisciplinary teams, and ensuring compliance with project specifications, safety standards, and quality requirements.

Seeking to contribute to high-impact construction projects while enhancing efficiency, cost control, and project delivery timelines.

---

## Professional Experience

### Green Gardens Site Engineer (2024 - 2026)

Follow up on the implementation of steel and concrete works to ensure their compliance with engineering standards and quality controls in Model A of the Al Forsan residential project. Quality control engineer for the final finishing works for the energy building and the commercial building in King Abdullah International Gardens, infrastructure works (water, electricity, sanitation).

### Everest Contracting Works – Civil Engineer | Site Engineer (2022 – 2024)

Supervised day-to-day construction activities across multiple site zones ensuring compliance with drawings and specifications.

Managed execution of concrete works including formwork, reinforcement, casting, and curing processes.

Coordinated with subcontractors, foremen, and suppliers to maintain workflow continuity and avoid delays.

Assisted in quantity take-offs and BOQ preparation contributing to accurate project cost estimation.

Ensured adherence to HSE policies and quality standards, minimizing rework and safety risks.

Supported project progress tracking and reporting to senior engineers and management.

---

## Projects Implemented

- Residential Buildings – Structural Works: Executed concrete elements including foundations, columns, and slabs for residential units.
  - Commercial Registry Building – Finishing Works: Supervised finishing activities ensuring quality and timely completion.
  - Truss and Flooring Factory: Assisted in structural execution and coordination of steel and flooring systems.
  - Hyper Mall (Finishing)
  - King Abdullah International Parks (Finishing works)
- 

## Education

Cambridge International College – Bachelors of Civil Engineering (Honors Degree) (2016 – 2023)

Graduation Project: Comparison Between Manual and Software Application of Multistory Buildings (Very Good Degree).

## **Technical & Professional**

- Site supervision, construction management, and execution
  - Quantity take-offs and BOQ preparation
  - Project coordination and reporting
  - Knowledge of structural and finishing works
  - Strong analytical, problem-solving, and communication skills
- 

## **Software Skills**

- AutoCAD (2D Drafting)
  - Primavera P6 (Basic Planning & Scheduling)
  - Microsoft Office (Word, Excel, PowerPoint)
- 

## **Courses & Certifications**

- Project Management Professional (PMP) Preparation
  - Primavera P6 – Planning & Cost Estimation
  - AutoCAD 3D & Shop Drawing
  - Bill of Quantity (Excel)
  - Construction Management & Project Scheduling
- 

## **Languages**

Arabic – Native

English – Intermediate (Professional Working Proficiency)
