## Professional Summary

---

Civil Engineer and QC Engineer with proven experience in infrastructure and construction projects, including roads, bridges, and tunnel maintenance. Skilled in Quality Assurance/Quality Control (QA/QC), project coordination, and construction supervision.

Strong expertise in inspection procedures, compliance monitoring, and schedule management using Primavera P6 and Microsoft Project. Proven ability to reduce rework and ensure full compliance with project specifications and quality standards, while delivering projects within budget and deadlines.

Experienced in coordinating with stakeholders, managing site operations, and supporting full project lifecycle execution.

## CORE COMPETENCIES

---

- Quality Assurance & Quality Control (QA/QC)
- Construction Management
- Infrastructure Projects (Roads, Bridges, Tunnels)
- Site Supervision & Inspection
- Project Planning & Scheduling
- Risk Assessment & Compliance Monitoring
- Stakeholder & Contractor Coordination
- Cost Control & Financial Monitoring

## Work Experience

---

### QC Engineer - Fidak Roads and Contracting Company | Dec 2025 – Present

- Supervise QA/QC activities for bridge and tunnel maintenance projects in compliance with municipal standards.
- Conduct inspections for structural repairs including concrete rehabilitation, crack treatment, and joint repairs.
- Review Inspection Requests (IRs), method statements, and material submittals before execution.
- Monitor testing activities (field & laboratory) ensuring material compliance with specifications.
- Coordinate with consultants and government authorities to resolve technical issues.
- Ensure implementation of QA/QC procedures and manage Non-Conformance Reports (NCR).
- Contribute to improving quality compliance and reducing rework on-site.

### Civil Engineer - Orbits Engineering Firm | May 2024 – May 2025

- Evaluated road construction requests and prepared technical feasibility reports.
- Supervised contractors to ensure adherence to project schedules and specifications.
- Prepared weekly and monthly progress reports analyzing performance and quality.
- Monitored field testing and ensured compliance with engineering standards.
- Managed documentation and project updates through the Etimad platform.

Supported timely project delivery by improving workflow coordination.

### Project Coordinator - Civil Engineer - Talal Kurdi Consultant | December 2021– May 2024

- Coordinated project schedules using planning tools to ensure timely execution.
- Managed communication between clients, contractors, and suppliers.
- Prepared technical and financial proposals with high accuracy.
- Monitored project budgets and analyzed cash flow performance.
- Supervised construction activities ensuring compliance with specifications.
- Produced detailed daily and weekly progress reports.
- Improved team productivity through effective task allocation and coordination.
- Ensured adherence to safety standards, reducing on-site risks.

### Road Engineer - Roads Accomplishment Ltd Co for Contracting. | September 2021 – December 2021

- Managed road maintenance operations and analyzed technical issues.
- Supervised pavement maintenance ensuring compliance with quality standards.
- Conducted field inspections and prepared performance reports.
- Coordinated with government entities to ensure regulatory compliance.

## Education

---

- **Master's in project management** – Midocean University, UAE | 2023 | GPA: 4.21/5
- **Bachelor's in civil engineering** – Al-Baha University, Al-Baha, Saudi Arabia | 2021

## Training Courses

---

- PMP Preparation Course | PM TRICKS | April 2025 | Duration: 35 hours
- Primavera P6 Professional | IPMC | June 2022 | Duration: 18 hours.

## Professional Training

---

### University Internship - Saudia Aerospace Engineering Industries | Jeddah | 2017 | Duration: 2 months

- Assisted in facility budget planning and resource allocation
- Supported construction and renovation project coordination
- Conducted facility condition assessments and performance analysis

## Memberships

---

- Member, Saudi Council of Engineers| 2021.

## Skills

---

**Technical Skills:** AutoCAD, Primavera P6, Microsoft Project, SAP, Advanced Excel.

**Engineering Skills:** Inspection & Testing Plans (ITP), NCR Management, Material Submittals.

**Project tools:** Scheduling, Reporting, Risk Management, Feasibility Analysis.

**Others:** Contract Management, Safety Reporting, Engineering Design Review.

## Languages

---

**Arabic:** Native | **English:** Professional Working Proficiency
