## Work experience:

### **AL AHLIA INTEGRATED**

Planning Engineer OCT 2025-Present

## Company profile:

Al Ahlia is a dynamic and diversified company committed to delivering high-quality services and innovative solutions across its areas of operation. With a strong focus on professionalism, customer satisfaction, and sustainable growth, Al Ahlia has built a solid reputation for excellence and reliability. The company emphasizes teamwork, integrity, and continuous improvement, ensuring value creation for clients, partners, and stakeholders.

## Professional Summary

5+ years of experience as a Planning Engineer in managing projects and schedules. I have worked with companies on various types of projects, including villas, residential buildings and commercial buildings. Work has included , planning execution, and managing resources effectively.

## Responsibilities:

- Prepare the Construction Detailed Baseline schedule using Primavera P6 with loaded resources (manpower, cost & equipment) for new projects and get approval.
- Prepare & submit the Daily Progress Report (DPR), updated Weekly & Monthly Progress Reports, cash flow, S Curves, look ahead programs (i.e., 1 week, 2 weeks) based on the project's progress.
- Identify the critical areas of progress risks and communicate properly to the project team.
- Regularly monitoring and tracking project expenditures against the approved budget to identify any variances.
- Participating in project meetings and discussions with the client as required.
- Reporting planning manager about work progress and make comparison between plan and actual progress

## Projects Involved

### **The Avenues Riyadh - Phase 2 "Tower 01, Tower 02 and Tower 03"**

Client: **Shomoul Mall Commercial**
