EDUCATION

- Bachelor of Engineering in Mechanical Engineering 2016 – Anna University Cauvery College Of Engineering – India.

CERTIFICATIONS

- CSWIP 3.1 Welding Inspector #516325 | Expires 08/Dec/2027
- ISO 9001:2015 Lead Auditor Quality Management System
- NDT/ASNT Level II
- Fiberglass Reinforced Thermosetting Resin (RTR) Pipe System
- HDPE Butt Fusion Welding of HDPE Pipe & Fittings

CBT QUALIFIED

- PID – PIPELINE
- PID – PIPING
- PID – WELDING
- PID – NDT
- PID – HVAC
- PID – PLUMBING

SUMMARY

Saudi Aramco PID – Approved Mechanical QC professional with **10 Years of experience** across oil & gas, Construction projects in Saudi Arabia. Experienced in **Piping, Pipeline, Welding & NDT, HVAC, Plumbing** with working knowledge of Saudi Aramco Standards and International Standards. Currently performing QC Supervisor/ Lead Level responsibilities including inspection coordination, Quality Reporting & NCR Management.

KSA EXPERIENCE – SAUDI ARAMCO PROJECT

INTERTEK

March 2024 – Present

SAUDI ARAMCO PID MECHANICAL – PIPING, WELDING, HVAC, PLUMBING, RTR, HDPE
Discipline Coverage: Piping (Metallic – CS & Non-Metallic – RTR/ HDPE/PVC), Welding, HVAC, Plumbing, Irrigation and Fire Water Systems

Projects:

- Saudi Aramco Stadium Project @Al Khobar | June 2025 – Present
- Power System Inspection Department – Project Inspection Unit | Mar 2024 – Jun 2025
- Substation External Inspection at Udhalayah, Haradh, Khurais, Yanbu
- 3098,175,106 # POD Building Construction at Dhahran, Khurais, Haradh
- BI-10-20636 Replacement of Juaymah NGL 230KV AIS with 230KV GIS at Rastanura

GULF CO OPERATION SYMBOLS & CONTRACTING May 2023 – March 2024

MECHANICAL QC – PIPING – CS |RTR |HDPE, WELDING, HVAC, PLUMBING

- Government Security Complex, Haradh + 3 Dispatch Points

METRO COMPANY LTD.

Oct 2017 – Oct 2022

(Formerly known as Raqwani Company)

MECHANICAL QC| PROJECT ENGINEER - HVAC, PLUMBING, PIPING – CS, RTR, HDPE, IRRIGATION SYSTEM, FIRE WATER

- MEP utility, Fire Alarm/ Firefighting & Telecommunication @ Pollution Building#10, West Pier – Rastanura | Feb 2022 – Oct 2022
- HVAC Enhancement, Auditorium & Tower Bldg @KACWC Ithra |Jan 2021 –Dec 2021
- Replace 150Mtr CS pipe By RTR Corroded Platform Rastanura Mar 2020– Jan 2021
- Restoration of Greenbelt Irrigation System Abqaiq | Aug 2019 – Feb 2020
- Fire Protection System @ B-90 KACWC – Ithra | Oct 2017 – Feb 2019
- Essential Cooling Enhancement System @ KACWC – Ithra | Jan 2018 – Feb 2019
- Upgrade FPS, Fire Sprinkler Installation Al Munirah 132, 133 | Nov 2017 – Dec 2017

ARAMCO APPROVALS

- Saudi Aramco Mechanical QC (HVAC, Plumbing, Piping, Welding, RTR & HDPE).
- GIS – Saudi Aramco PID Mechanical (Piping, Welding, HVAC, Plumbing)

ARAMCO APPRECIATION

- Recognized for Quality Monitoring and Technical Support on Saudi Aramco Power System Projects.
- Awarded Inspector of the Month –PSID/PIU DEC 2024.
- Contributed to Successful completion of Substation and Community Projects with Full QA/QC Compliance.
- NA Community Service Department -Contributed to Successful completion of Project 150Mtr Carbon Steel Pipe by RTR Quality Inspection, ensured on time completion with Quality.

Feb 2023 – Apr 2023

WELDING INSPECTOR | SHREE VENKATESHWARA ENGINEERING WORKS

May 2016 – Aug 2017

MECHANICAL QC/ENGINEER | CAUVERY ENGINEERING WORKS

QUALITY LEADERSHIP - REPORTING EXPERIENCE

- Evaluating the contractor quality performance by calculating Project quality index (**PQI**) on monthly basis, project quality dash on weekly basis, prepared and submitted weekly quality highlights and inspection status report to Management and Client Representatives.
- Carry out quality audits for the contractor and subcontractor for compliance with the requirements of the contractor approved quality plan.
- Prepare and review the lesson learned and improve the quality approaches for the implementation of the quality management system.
- Escalation of non – compliance by the contractor/ SAPMT observed on site by issuing proactive notification, standard violation, SA- NCR, SA- Worksheet depending on the criteria of violation as per **SAEP -381**.
- Review and approve the Quality related documents of **PQP, QCP, ITP, NCR**.
- Continuously monitoring the submission of the project quality documents Two week look Ahead schedule (**TWLA**), Method of Statement (**MOS**), Monthly Quality Management Report (**MQMR**) and Non-Material Requirements (**NMR**).
- Managed the full lifecycle of INCR, NCR, PAN, FA, including identification, Root Cause Analysis (RCA), Corrective action request (CAR) and timely closure.
- Conducted quality awareness sessions for contractors covering RFI Implementation process, ITP Requirements, Special Process and Procedures.
- Supported Quality audits by ensuring availability of inspection records, Third party test reports and compliance documentation.
- Coordinated with Client through QMIS and ASITE ensuring timely responses to LBE, SOR Notification, RFI, WIR and MIR.
- Review and monitoring the preparation of redline & As built drawing as per established field engineering control procedure.
- Coordinated site inspection activities with contractor QC inspectors and client representatives to ensure compliance with approved ITP and project specifications.

LANGUAGES

- Tamil
- English
- Hindi
- Malayalam
- Arabic

HSE AWARENESS

- Strong awareness of Saudi Aramco HSE requirements, Permit to Work (PTW) System, JSA, Toolbox Talks and safe work practices during welding, lifting and pressure testing activities.

CORE COMPETENCIES

Quality Control & Inspection

- Mechanical QC Inspection (RTR, HDPE, PVC/UPVC, Carbon Steel, Copper Piping, Welding, Fire Water, Irrigation, Sewer- DWV, Storm Water, HVAC).
- Welding Inspection and Monitoring (AWS D1.1, ASME Sec IX).
- HVAC System Inspections (AHU, PACU, ACCU, Duct, Insulation, Dampers).
- Fire Water System & Plumbing Installation as per NFPA, UMC, IPC.
- Supervision of pressure/hydro testing and pneumatic testing.
- Material receiving, preservation and storage.

Piping, Static & Rotating Equipment / Pipeline Supervision

- Ensured piping, pipeline and rotating equipment installation activities are carried out in accordance with approved drawings, ITP, Project specification and Saudi Aramco Engineering Standards, ASME B31.1, B31.3, B31.4, B31.8.
- Performed material receiving inspection and Verified MTC, heat number traceability and compliance with project specifications.
- Conducted inspection and surveillance of Metallic piping systems including carbon steel, API 5L, LTCS including fit up, alignment, Welding and installation activities as per approved ITP.
- Witnessed and verified welding activities in accordance with WPS, PQR, Welder qualification (WQT) as per ASME Section IX and API 1104.
- Inspected pipeline construction activities including Right of Way (ROW) preparation, trenching, stringing, cold bending, field joint coating and lowering in ensuring compliance with project specifications.
- Verified installations of pumps, piping connections, valves and supports ensuring proper alignment, flange fit up and stress-free installation.
- Monitored pipeline lowering and installation activities ensuring proper trench padding and handing to prevent coating damage.
- Monitored flange alignment, bolt tightening and piping support installation.
- Verified Hydrotest package including test limits, pressure gauges, vents, drains and reinstatement requirements.
- Monitored dewatering, drying and reinstatement activities following successful pressure testing to ensure system readiness for commissioning.

Welding Supervision

- Reviewed and approved Welding Procedure Specification (WPS), Procedure Qualification Record (PQR), Welder Qualification Test (WPQ) and verified welder qualifications and consumables in accordance with SAES and ASME.
- Monitored in process welding parameters such as Ampere, Voltage, Travel Speed, Heat input, Welding Technique, Pre heat and inter pass temperature.
- Controlled welding consumables by issuance and verification that welders are using correct welding consumables (Welding rods, Filler Metals).
- Ensuring Job clearance card prior to start the activity of Welding.
- Inspected fit-up, in process and Weld Visual inspection.
- Coordinated NDT activities including RT, UT, PT, PAUT and reviewed NDT Reports.
- Maintained and monitored weld summaries, daily welding reports (DWR), Welder Repair Rate (WRR) and tracked weld repair percentage.

HVAC Supervision

- Conducted inspections of HVAC ducting systems installation ensuring compliance with approved shop drawings, project specification and applicable standards.
- Performed material receiving inspection for HVAC ducts, fittings, accessories and equipment including AHU, PACU, Fan coil unit and chillers ensuring compliance with

International Standards &

Compliance

- Compliance with **ASME B31.1,31.3,31.4,31.8, ASME Section V & IX, AWS D1.1, API 1104.**
- HVAC System- **SMACNA, UMC, NFPA 90A, ASHRAE, AHRI** standards.
- Experience with Saudi Aramco Engineering Standards (**SAES, SAEP, SAMSS, MSAER, SASD, SA175**).

Key Technical Competencies

- Saudi Aramco Schedule Q Compliance and inspection requirements.
- Inspection Test Plan (ITP) implementation and verification.
- Welding Inspection and Welder Qualification Monitoring.
- Maintained inspection records including NDT reports, hydrotest package, final QA documentation.

approved material submittals.

- Verified proper storage, handling and preservation of HVAC materials and equipment in accordance with manufacturer recommendations and Saudi Aramco engineering standards.
- Monitored duct fabrication, installation, alignment and support installation to ensure compliance with project requirements and approved drawings.
- Inspected duct insulation and witnessed duct air leakage tests and smoke test to verify duct system integrity and performance requirements
- Monitored installation of HVAC equipment including AHU, Chiller and associated accessories ensure proper alignment, vibration isolation and connection to duct and piping systems.
- Supported pre-commissioning, commissioning and Testing, Adjusting and Balancing (TAB) activities to ensure HVAC system performance in accordance with approved procedures and project specification.

Plumbing & Fire Protection

- Conducted inspection of plumbing systems including potable water, drainage and sanitary piping installation in accordance with approved drawings, project specifications and applicable Saudi Aramco engineering standards.
- Verified material receiving inspection for pipes, fittings, valves and accessories ensuring compliance with approved material submittals and project specification.
- Monitored installation activities including pipe alignment, slope requirements for drainage lines, support installation and proper joining methods.
- Inspected plumbing, drainage (DWV), fire protection systems including sprinklers and standpipe networks in compliance with approved drawings and standards.

Non- Metallic piping inspection (RTR/HDPE)

- Performed inspection of non- metallic piping systems including RTR (Reinforced thermosetting Resin) and HDPE piping installation as per project specification and manufacturer recommendations.
- Verified material identification, storage conditions, handling requirements for non-metallic piping materials to prevent damage before installation.
- Monitored joint preparation, alignment and installation procedures including adhesive bonding for RTR piping and fusion welding for HDPE piping systems.
- Witnessed joining activities such as butt fusion, electro fusion for HDPE & adhesive bonding for RTR ensuring compliance with approved procedures, qualified installers.
- Conducted visual inspection of completed joints and ensured proper curing time & joint integrity before testing.
- Witnessed hydrostatic pressure testing of RTR and HDPE piping ensuring test pressure, stabilization time and leakage checks.
- Verified proper documentation for installation records, testing reports & inspection checklists as part of project quality documentation.
