Saudi Arabia, Riyadh

PROFESSIONAL SUMMARY

Cybersecurity graduate with hands-on experience in GRC, risk assessment, and security controls mapping using NCA-ECC and ISO/IEC 27001. Skilled in Wireshark, Kali Linux, and vulnerability scanning, with strong motivation to apply cybersecurity skills in real-world environments.

Education

Cybersecurity - Technical and Vocational Training Corporation

Jul 2023 - dec 2025

Associate Degree in Cybersecurity - (TVTC) with a GPA of 4.32 / 5

Work Experience

Cybersecurity Intern

May 2025 - sep 2025

Saudi Research and Media Group (SRMG) | Riyadh, Saudi Arabia

- Worked as part of the cybersecurity team in a professional work environment.
- Participated in preparing risk assessments and mapping between standards such as NCA-ECC and ISO/IEC 27001.
- Participated in the preparation and maintenance of risk assessment tables (RiskRegister), including identifying risks, likelihood, impact, and mitigation controls
- Assisted in policy review and updates.
- Attended meetings and presentations related to Governance, Risk, and Compliance (GRC).
- Gained hands-on experience working in the GRC domain.

Certifications

- Microsoft Office Specialist (MOS) - Excel 365
- Ethical Hacker (CEH v13) – EC-Council
- Certified Secure Computer User (CSCU) - EC-Council
- Certificate in Fundamentals of AI Agent Systems - Tuwaiq Academy

Projects

Project Title: AI SOC Alert Agent

Description: Developed an AI-based SOC Alert Agent to monitor, detect, and respond to cybersecurity threats. Implemented using Python, GreyNoise, and AbuseIPDB for threat intelligence and alert automation.

Courses

- Cybersecurity Incident Response Analysis (Misk × STC)
- Introduction to IoT and Digital Transformation
- Digital Transformation and Digital Identity
- Cybersecurity Threats, Vulnerabilities, and Attacks
- Getting Started with Cisco Packet Tracer
- Cyber Threat Management
- Endpoint Security
- Network Defense
- Ethical Hacker
- Python 103
- Python Essentials 1
- Python Essentials 2

Core Skills

- **Technical Skills:** Information Security Fundamentals (CIA Triad), Threat Analysis (Beginner Level), Basic Python Programming, Vulnerability Scanning
- **Tools & Platforms:** Microsoft Excel (MOS Excel 365), Kali Linux, Nmap, Wireshark
- **Soft Skills:** Effective Communication, Time Management, Self-Learning, Team Collaboration

Languages

Arabic (Native)

English (Professional Working Proficiency)
