Medina, SA

Ahmedsaad78937@gmail.com

Profile

Highly motivated and results-oriented Junior Architect with 3+ years of comprehensive experience across over 100 diverse projects, including residential, commercial, hospitality (restaurants & coffee shops), landscaping, medical & pharmaceutical industries, cleanrooms, and research centers. Proven ability in delivering high-quality designs, meticulous drafting, and effective project coordination from conceptualization to execution.

Areas of Expertise

Architectural Design - Interior & Exterior Visualization - Cleanroom Design - Landscape Design - BIM Modeling - Laser Scanning (Leica) - Point Cloud to Revit - Project Coordination - Technical Drafting - Revit Standardization - Governmental Submission - Site Supervision - Supplier & Subcontractor Management - Quality Control - Design Compliance.

Professional Experience

Architect, ([Ashkal Arabia Construction Company](#))

Medina, SA 05/2024 - present

- Managed and contributed to over 20 projects in various capacities.
- Executed exterior and interior design solutions, ensuring aesthetic appeal and functional efficiency.
- Produced detailed drafting and detailed design & drawings for various project phases.
- Conducted thorough snag listing and quality control to ensure adherence to standards.
- Facilitated seamless coordination between different disciplines (Electrical, Mechanical, Architectural).
- Developed comprehensive landscape designs.
- Managed suppliers and subcontractors, including handling negotiations to secure favorable terms.
- Ensured effective coordination between the technical office and site engineers based on dynamic site conditions.
- Utilized Laser 3D Scanner (Leica) on site to produce Recap models, transforming them into accurate Revit models representing current building conditions.
- Implemented standardization of drawing sheets and Revit templates for the technical office, enhancing efficiency.
- Responsible for submitting drawings to governmental organizations, ensuring compliance.
- Developed method statements for site engineers to follow, streamlining on-site procedures.
- Specialized in designing and detailing cleanroom facilities, meeting stringent industry standards.
- Performed on-site quality control inspections to ensure work compliance with approved drawings and specifications.
- Coordinated with governmental authorities, including the royal commission for Makkah city and holy sites, to ensure compliance with regulations and secure project approvals.

Architectural Visualizer & Exterior/Interior Designer (Remote),
(Engineering Consultant Office)

Makkah, SA 04/2023 - 05/2024

- Contributed to over 80 projects remotely, focusing on architectural visualization and design.
- Developed compelling exterior and interior designs for a wide range of projects.
- Produced high-quality architectural visualizations to present design concepts effectively.
