

**MOHSIN MUSHTQ**

**POSITION – CIVIL SITE ENGINEER**

**MOBILE NUMBER-+966-576404644**

**EMAIL :MOHSINMUSHTAQ605@GMAIL.COM**

### ***Profile***

*Highly motivated and innovative Civil Engineer with over 5 years of experience in power plant, oil & gas, and road projects, specializing in heavy foundations, RCC structures, infrastructure works and AutoCAD and Revit. Skilled in site execution, contractor coordination, and ensuring compliance with drawings, QA/QC, and HSE standards.*

### **Qualification**

*Institution - Punjab technical University, PUNJAB, INDIA*

*Degree - Bachelors of Technology in civil engineering*

*Evaluation- 69.9 CGPA*

*Institution - Jammu & Kashmir Board of School Education, INDIA*

*Degree – Intermediate (12<sup>th</sup>)*

*Evaluation- 81.2 %*

### **PROJECT -BASED EXPERIENCE, RESPONSIBILITIES AND POSITIONS.**

#### **1- JAFURAH Co-Generation Project Phase 2 Expansion. (Eastern province, Saudi Arabia)**

**Company – SINOHYDRO CORPORATION**

**Client – DOOSAN ENERGY**

**Position – Civil Site Engineer**

**Project Scope – Execution of expansion and integration works for power plant facilities, including additional foundations, structural extensions, underground networks, and interface work to connect new systems with existing Phase 1 infrastructure.**

**Tenure – October 2025 – March 2026**

### **Responsibilities**

- *Lead execution of civil works for expansion areas, ensuring smooth integration with existing facilities.*
- *Coordinate with civil, mechanical, electrical, and instrumentation teams to resolve interface issues.*
- *Manage subcontractors, including manpower planning, material coordination, and daily site activities.*
- *Monitor construction progress and ensure timely completion as per project schedule.*
- *Ensure strict compliance with QA/QC standards, specifications, and approved method statements.*
- *Conduct joint inspections with consultant/client and obtain work approvals.*
- *Identify site challenges and implement effective solutions to maintain progress.*
- *Review drawings and provide technical support for site execution.*
- *Enforce HSE standards and promote safe working practices across all work fronts.*
- *Prepare daily and weekly progress reports and coordinate with management for updates.*

## **2- JAFURAH Co-Generation Project Phase 1(Eastern province, Saudi Arabia)**

---

**Company** – SINOHYDRO CORPORATION

**Client** – DOOSAN ENERBILITY

**Position** – Civil Site Engineer

**Project Scope** – Execution of civil and structural works for power plant facilities including equipment foundations, RCC structures, Underground networks, Infrastructure works and Cable trenches.

**Tenure** – NOVEMBER 2023 – SEPTEMBER 2025

### **Responsibilities**

---

- Execute civil and structural works including equipment foundations, RCC structures, and underground utilities as per approved drawings.
- Supervise earthworks, excavation, backfilling, rebar fixing, formwork, concreting, and RCC works.
- Oversee construction of transformer, substation, tank foundations, and bund walls.
- Execute underground utilities including cable trenches, water transmission networks, and drainage systems (storm, sewer, firewater, potable).
- Supervise construction of industrial buildings, pipe racks, roads, and asphalt pavement works.
- Perform anchor bolt setting, alignment, and non-shrink/epoxy grouting for equipment foundations.
- Review and interpret IFC drawings and ensure accurate implementation on-site.
- Ensure compliance with project specifications, QA/QC standards, and approved method statements.
- Coordinate with consultant for inspections, approvals, and technical clarifications
- Verify layout, levels, and alignment before and after casting activities.
- Raise RFIs, IRs, and manage material approvals and site documentation.
- Prepare red markups and as-built drawings in coordination with engineering teams.
- Implement HSE procedures and conduct toolbox talks to maintain safe working conditions.
- Maintain daily progress reports and update work status to senior management.
- Support pre-commissioning activities by ensuring readiness of civil works, clearance of punch items, and system handover.

## **3- OMPPD (Onshore Maintain Potential Projects Department). Abqaiq, Saudi Arabia**

---

**Company** - Br. C. A. T INTERNATIONAL CO. LIMITED

**Position** – Civil Site Engineer

**Project Scope** – Construction of civil, structural, and piping works for onshore facilities including foundations, RCC structures, structural steel, underground and above-ground piping systems, pipe racks and supports, equipment foundations, utility corridors, drainage systems, access roads, and associated infrastructure work within the Abqaiq oil & gas facilities.

**Tenure** – DECEMBER 2021 – AUGUST 2023

### **Responsibilities**

---

- Supervised and executed piping, civil, and structural construction works in accordance with approved drawings, specifications, and project requirements.
- Prepared, reviewed, and implemented site execution plans, construction drawings, and work schedules to ensure timely project delivery.
- Managed daily site activities including manpower supervision, subcontractor coordination,

- *and resource planning.*
- *Coordinated with engineering, QA/QC, safety, and planning teams to resolve site issues and ensure compliance with project standards.*
- *Ensured adherence to quality, safety, and environmental procedures, maintaining high standards of workmanship on site.*
- *Demonstrated strong leadership through effective team coordination, communication, and problem-solving.*
- *Monitored construction progress and provided regular updates and reports to project management.*
- *Contributed to the successful completion of project milestones by supporting efficient execution and maintaining professional work ethics*

4- *Designed and executed multiple residential and commercial architectural projects, ensuring functional, structural, and aesthetic quality.*

---

**Company** – ARCH STUDIO (INDIA)

**Position** – Site & Design Engineer

**Project Scope** – *The project involved the design and execution of multiple residential and commercial architectural developments, focusing on functional efficiency, structural integrity, and aesthetic quality.*

**Tenure** - OCTOBER 2020 – OCTOBER 2021

**Responsibilities-**

---

- *Developed architectural designs, floor plans, and project layouts for residential and commercial projects.*
- *Collaborated with clients and project stakeholders to ensure adherence to design requirements and functional needs.*
- *Conducted site assessments, feasibility studies, and on-site inspections to support accurate planning and execution.*
- *Coordinated with civil engineering teams to ensure structural integrity, quality standards, and compliance with local regulations.*
- *Utilized professional design software including AutoCAD, Revit, and other drafting tools to prepare detailed architectural drawings.*
- *Demonstrated strong analytical and problem-solving skills with a high attention to detail.*
- *Communicated effectively with team members, contractors, and clients, contributing significantly to the timely delivery of projects.*

---

**SKILLS**

- |                                     |  |
|-------------------------------------|--|
| • EARTHWORKS                        | • RISK ASSESSMENT AND HAZARD IDENTIFICATION  |
| • EXCAVATION & BACKFILLING          | • WORKPLACE SAFETY INSPECTION AND AUDITS     |
| • RCC STRUCTURES AND FOUNDATION     | • COMMERCIAL AND RESIDENTIAL BUILDING DESIGN |
| • SITE EXECUTION AND SUPERVISION    | • AUTOCAD (2D/3D)                            |
| • PROJECT SCHEDULING AND MANAGEMENT | • REVIT                                      |
| • SITE DOCUMENTATION & REPORTING    | • LUMION                                     |
| • IR's & RFI's                      | • MS SUITS                                   |

**Personal Completed Training, certifications:**

- AUTOCAD
- RIVET
- IOSH
- OSHA
- FIRST AID
- LUMION
