SUMMARY

A professional civil engineer with over 8 years of experience in managing and executing road and infrastructure projects, with a proven track record in overseeing and implementing projects under the Ministry of Transport and Logistics Services. Specialized in operations and maintenance, project management, and ensuring compliance with the latest global engineering standards. Skilled in data analysis, team supervision, and maintaining high standards of quality and safety.

KEY ACHIEVEMENTS

Cost Reduction Initiative

Reduced maintenance costs by 20% over two years through strategic resource allocation in the application of performance-based contracts

Timely Project Completion

Successfully led the team to complete a road resurfacing project 15% ahead of schedule.

Enhanced Safety Compliance

Improved safety compliance by 30%, reducing site incidents significantly.
